Parliament House
CANBERRA ACT 2600

Dear Mr President
Dear Mr Speaker

I hereby submit Portfolio Additional Estimates Statements in support of the 2018-19 Additional Estimates for the Agriculture and Water Resources Portfolio.

These statements have been developed, and are submitted to the Parliament, as a statement on the funding requirements being sought for the Portfolio.

I present these statements by virtue of my ministerial responsibility for accountability to the Parliament and, through it, the public.

Yours sincerely

Minister for Agriculture and Water Resources

ABBREVIATIONS AND CONVENTIONS

The following notation may be used:

NEC/nec	not elsewhere classified
-	nil
..	not zero, but rounded to zero
na	not applicable (unless otherwise specified)
nfp	not for publication
\$m	\$ million
\$b	\$ billion

Figures in tables and in the text may be rounded. Figures in text are generally rounded to one decimal place, whereas figures in tables are generally rounded to the nearest thousand. Discrepancies in tables between totals and sums of components are due to rounding.

PORTFOLIO ADDITIONAL
ESTIMATE STATEMENTS**

USER GUIDE

The purpose of the 2018–19 Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements (PBS), is to inform Senators and Members of Parliament of the proposed allocation of resources to Government outcomes by entities within a portfolio. The focus of PAES differs from the PBS in one important aspect. While PAES includes an Entity Resource Statement to inform the Parliament of revised estimates of total resources available to an entity, its focus is to explain changes in resourcing by outcome(s) since the Budget. As such, PAES provides information on new measures and their impact on the financial and/or non-financial planned performance of programs supporting those outcomes.

PAES facilitates understanding of proposed appropriations in Appropriation Bills (No. 3) and (No. 4) 2018–19. For this reason PAES is declared by the Appropriation Bills to be a 'relevant document' to the interpretation of the Bills according to section 15AB of the *Acts Interpretation Act 1901*.

Whereas the 2018–19 Mid-Year Economic and Fiscal Outlook (MYEFO) is a mid-year budget report that provides updated information to allow the assessment of the Government's fiscal performance against its fiscal strategy, PAES update the most recent budget appropriations for entities within a portfolio.

Structure of the Portfolio Additional Estimates Statements

PAES is presented in three parts with subsections.

User Guide

Provides a brief introduction explaining the purpose of PAES.

Portfolio Overview

Provides an overview of the portfolio, including a chart that outlines the outcomes for entities in the portfolio.

Entity Additional Estimates Statements

A statement (under the name of the entity) for each entity affected by Additional Estimates.

Section 1: Entity overview and resources	This section details the changes in total resources available to an entity, the impact of any measures since Budget, and impact of Appropriation Bills (No. 3) and (No. 4) 2018–19.
---	---

Section 2: Revisions to entity outcomes and planned performance	This section details any changes to Government outcomes and/or any changes to the planned performance of entity programs.
--	---

Section 3: Special account flows and budgeted financial statements	This section contains updated explanatory tables on special account flows and staffing levels and revisions to the budgeted financial statements.

PORTFOLIO OVERVIEW

PORTFOLIO OVERVIEW

The Agriculture and Water Resources portfolio consists of the Department of Agriculture and Water Resources (the department) and nine portfolio bodies (Figure 1 refers).

The roles and responsibilities of the department and the portfolio bodies have not changed since the 2018–19 Portfolio Budget Statements (PBS). An outline of the Department’s Portfolio Overview can be found in the 2018–19 PBS.

The department is receiving additional appropriations through Appropriation Bills (No. 3) and (No. 4) 2018–19. The Murray-Darling Basin Authority will receive additional resourcing that will pass through the department and the Australian Fisheries Management Authority will receive additional appropriation through Appropriation Bill (No. 3) 2018–19.

- (a) *Appropriation Act (No. 1) 2018–19* and *Appropriation Bill (No. 3) 2018–19*.
- (b) Excludes \$196.521 million subject to administrative quarantine by the Department of Finance or withheld under section 51 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act).
- (c) Estimated external revenue under section 74 of the PGPA Act.
- (d) Departmental capital budgets are not separately identified in the Appropriation Bills and form part of ordinary annual services items. Please refer to Table 3.6 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (e) *Appropriation Act (No. 2) 2018–19* and *Appropriation Bill (No. 4) 2018–19*.
- (f) Excludes 'Special Public Money' held in accounts like Other Trust Monies accounts (OTM), Services for Other Government and Non-agency Bodies accounts (SOG) or Services for Other Entities and Trust Monies accounts (SOETM). For further information on special accounts see Table 3.1.
- (g) Amounts credited to the special account(s) from the department's annual appropriations or crediting provisions in special account acts.
- (h) A direction under section 51 of the PGPA Act, withholds access to appropriated funds resulting in a 'loss of control' for the entity over relevant amounts, for example Government decisions, movements of funds, reallocations or reclassifications.
- (i) Amounts credited to the Water for the Environment Special Account were previously credited through the special appropriation. However, this treatment has changed. These amounts are now credited through the provisions in the special account acts, therefore removing the requirement of the special appropriation.

Prepared on a resourcing (i.e. appropriations available) basis.

Please note: All figures shown above are GST exclusive – these may not match figures in the cash flow statement.

Ginger	1. From 1 October 2018, the Government introduced the Emergency Plant Pest Response (EPPR) component to the ginger levy and set it to zero, at the request of the Australian Ginger Industry Association. The implementation of the EPPR component for the ginger levy fulfils the Australian Ginger Industry Association's obligation to establish a repayment mechanism for the industry's share of any future emergency response.	-	-	-	-	-

Table 1.3: Additional Estimates and other variations to outcome since 2018–19 Budget (continued)

- (a) The measure *Improving Confidence in the Strawberry Supply Chain* will be funded through the department.
- (b) Under program 1.2 Sustainable Management – Natural Resources, the sub-program Pest Animal and Weeds Management was formerly known as Stronger Farmers, Stronger Economy – strengthening research, skills and management of natural resources – pest animal and weeds management. This terminating measure has administered funding of \$8.493 million under Outcome 1 and departmental funding of \$1.247 million in 2022–23 under Outcome 2.
- (c) This measure is ongoing.
- (d) \$175.000 million and \$197.324 million for this program has been moved beyond the forward estimates to 2022–23 and 2023–24.
- (e) \$175.000 million in 2022–23 and \$60.000 million in 2023–24 for this program has been reclassified from Administered – Act (No. 2) Non-Operating (Assets and Liabilities).
- (f) The measure *Assistance for Farmers and Farm Communities in Drought – Great Artesian Basin Sustainability Initiative – extension* also has funding provided through the National Partnership on the Great Artesian Basin Sustainability Initiative, which is administered by the Department of the Treasury (see below table National Partnership payments). This measure has funding of \$0.615 million in 2022–23, \$0.445 million in 2023–24 and \$0.105 million in 2024–25.
- (g) The financial implications of the *Future Drought Fund – establishment* will be finalised following the settlement of the investment mandate. This will require approval of the Treasurer, the Minister of Finance and the Public Service, following consultation with the Future Fund Board of Guardians.
- (h) Amounts credited to the Water for the Environment Special Account were previously credited through the special appropriation. However, this treatment has changed. These amounts are now credited through the provisions in the special account acts, therefore removing the requirement of the special appropriation.
- (i) Unspent equity injections from the current and prior years being moved after their repeal date will need to be reappropriated in the year required. Otherwise, if they are moving before their repeal date, they will not need to be reappropriated. This is because funding is still available and does not need to be reappropriated nor re-recognised in the estimates.
- (j) Access to prior years appropriation for Non-Operating Administered – Act (No. 2) Assets and Liabilities was approved for ‘Farm Business Concessional Loans’ of \$7.000 million from 2017–18 and ‘Sustainable Rural Water Use an infrastructure Program’ of \$193.727 million from 2017–18.
- (k) Unspent equity injections – Access to prior years appropriation for Non-Operating Equity Injections – Act (No. 2) was approved for ‘Biosecurity Integrated Information System’ of \$4.377 million from 2017–18 and ‘Stronger Farmers, Stronger Economy – Improvements to Access Premium Markets – Improving the Biosecurity System – Surveillance’ of \$2.083 million from 2017–18.
- (l) Special Account \$103.141 million and \$29.900 million for this program has been moved beyond the forward estimates to 2023–24 and 2023–24.
- (m) The measure *Assistance for Farmers in Drought – Great Artesian Basin Sustainability Initiative – extension* also has funding provided through the Department of Agriculture and Water Resources (see Outcome 3 above). This measure has funding of \$8.000 million in 2022–23 and \$4.000 million in 2023–24.
- (n) \$40.000 million and \$29.900 million for this program has been moved beyond the forward estimates to 2023–24 and 2023–24.
- (o) \$60.000 million and \$39.299 million for this program has been moved beyond the forward estimates to 2022–23 and 2023–24.

- (a) Under program 1.2 Sustainable Management – Natural Resources, the sub-program Pest Animal and Weeds Management was formerly known as Stronger Farmers, Stronger Economy – strengthening research, skills and management of natural resources – pest animal and weed management.
- (b) The Australian Pesticides and Veterinary Medicines Authority and Regional Investment Corporation are corporate Commonwealth entities (CCE) under the PGPA Act and do not receive direct appropriations. Instead, this funding passes through the department to these entities.
- (c) 'Expenses not requiring appropriation in the Budget year' are made up of depreciation and amortisation expenses, resources received free of charge, concessional loan discount and balance sheet adjustments.
- (d) Expenses funded from both 'Ordinary annual services (Appropriation Act No. 1 and Bill No. 3)' and 'External Revenue' under section 74 of the PGPA Act.
- (e) Departmental appropriation allocations are notional and reflect the current structure of the department.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as Government priorities change.

- (c) Appropriation: section 80 of the PGPA Act. Establishing Instrument: section 64 of the *Water Efficiency Labelling and Standards Act 2005*. Purpose: Conserving water by reducing demand through the provision of water efficiency information about water-using products and promoting the adoption of efficient water-saving techniques.
- (d) Appropriation: section 80 of the PGPA Act. Establishing Instrument: section 86AB of the *Water Act 2007*. Purpose: Improving the water efficiency of irrigation infrastructure and improving delivery and storage of environmental water supply within the Murray-Darling Basin.
- (e) Appropriation: section 78 of the PGPA Act. Establishing Instrument: Water Resources Special Account 2016 – Establishment Determination 2016/01 under the PGPA Act. Purpose: Supporting inter-governmental activities relating to water. Note: This special account was established on 31 August 2016.
- (f) Appropriation: section 78 of the PGPA Act. Establishing Instrument: Financial Management and Accountability Determination 2010/11 – Australian Quarantine and Inspection Service Special Account Establishment 2010. Purpose: For expenditure relating to the provision of quarantine and inspection services and payment of moneys to the Consolidated Revenue Fund as agreed by the relevant Minister and Minister for Finance. The AQIS special account determination is to sunset on 1 October 2020.
- (g) Appropriation: section 80 of the PGPA Act. Establishing Instrument: section 6(1) of the *National Residue Survey Administration Act 1992*. Purpose: For conducting national residue surveys and to provide for collection of the NRS levy imposed by various acts.

Note:

The department has responsibility for the Building Australia Fund Water Portfolio Special Account. For the year ended 30 June 2018, the account had a nil balance and there were no transactions debited or credited to it during the current or prior reporting period. Appropriation section 80 of the PGPA Act. Establishing Instrument: section 82 of the *Nation-building Funds Act 2008*. Purpose: Creating and developing water infrastructure.

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Analysis of budgeted financial statements

The financial statements incorporate all budget estimate changes since the 2018–19 PBS. An analysis of the primary causes of the movements in the budgeted departmental financial statements and administered schedules is provided in the relevant sections. The 2018–19 PBS is used as the comparative figures in the analysis.

Budgeted comprehensive departmental income statements

Revenue from government in 2018–19 has increased by \$9.1 million since the 2018–19 PBS due to new measures announced in the 2018–19 Mid-Year Economic and Fiscal Outlook (MYEFO) and other variations listed in tables 1.2 and 1.3.

Own source revenue has increased \$18.5 million, largely due to higher than anticipated revenue from the department’s cost recovered activities.

Expenses have increased by \$27.7 million, reflecting 2018–19 MYEFO measures and other variations listed in tables 1.2 and 1.3, higher level of activity in the department’s cost recovered activities and an increase in the estimate for depreciation expenses.

Consistent with the forecast in the 2018–19 PBS, the department continues to budget for a balanced budget position in 2018–19 before unfunded depreciation.

The departmental balance sheet has incorporated the final 2017–18 position as published in the 2017–18 Annual Report.

Schedule of budgeted income and expenses administered on behalf of the Government

It is estimated that the department will receive non-appropriation revenue on behalf of government of \$996.6 million in 2018–19, an increase of \$172.5 million since the 2018–19 PBS. The increase is primarily due to a non-cash adjustment to recognise gains for the recognition of water assets under the Sustainable Rural Water Use Infrastructure Program (SRWUIP).

Administered expenses in the 2018–19 Portfolio Additional Estimates Statements (PAES) are estimated to be \$2,634.6 million, an increase of \$310.3 million since the 2018–19 PBS. The increase reflects the non-cash adjustment to transfer water assets under SRWUIP to the Department of the Environment and Energy, measures announced in the 2018–19 MYEFO and other variations listed in tables 1.2 and 1.3.

Schedule of budgeted assets and liabilities administered on behalf of the Government

Administered net assets as at 30 June 2019 are anticipated to increase by \$396.7 million compared to the 2018–19 estimate in the 2018–19 PBS. This change is primarily due to an increase in trade and other receivables of \$250.0 million. This increase relates to the additional loan funding available through the Regional Investment Corporation that was announced in the 2018–19 MYEFO under the Assistance for Farmers and Farm Communities in Drought measure. There has also been an increase in cash and cash equivalents of \$83.0 million relating to the Water for the Environment Special Account and higher investments accounted for using the equity method of \$49.0 million.

The schedule of budgeted assets and liabilities administered on behalf of the Government has incorporated the final 2017–18 position as published in the 2017–18 Annual Report.
