10.3 Decision to have a Recovery Plan – some issues

The Committee **noted** issues associated with the Recovery Planning Action Commenced and Not Commenced Lists.

10.3 – All members

The Committee **noted** practical outcomes of these lists to date is producing adverse consequences of rushed plans and activities that would probably be best directed to other high priority areas to achieve conservation outcomes.

10.3 – All members

The Committee **agrees** to the proposed actions and approach to rectify these issues.

10.3 – All members

The Committee **agrees** to amended Recovery Planning Action Commenced and Not Commenced Lists for recommendation to the Minister for publication and encourages the Department to review lists to ensure efficient and effective ways to advance conservation.

10.3 – All members

The Committee **noted** that a proposal, including timetable, to effectively manage the passage of outstanding recovery plans on the Commenced List will be presented for the Committee's consideration at the next TSSC meeting.

10.3 – All members

The Committee **noted** with the amendments of the legislation the avoidance of issues such as this is important in achieving conservation outcomes and therefore **recommends** that the consequences of the transitional arrangements between the Endangered Species Protection Act and original EPBC Act and the amended Act of 2006 be drawn to the

10.3 – All members
Action DEWHA

attention of Dr Hawke with a suggestion that a legislated remedy might be better than relying on the *Acts Interpretation Act* and traditional transitional arrangements.

In agreeing to endorse the recommendations, the Committee **noted** that, while the amendments to the EPBC Act and ensuing processes to implement them were well intended, they were detracting from good conservation outcomes.

Close of Meeting

The Chair thanked Committee members and Departmental staff for a successful meeting.

All members

I declare, on behalf of the Committee, that these Minutes are a true and accurate record of the meeting.

DEPARTMENT OF THE ENVIRONMENT, WATER, HERITAGE AND THE ARTS

Minister for the Environment, Heritage and the
Arts (Decision)

Brief No: B09/1778

Division/Agency: AWD

Public Affairs Consulted: No

18 NOV 2009

ISSUES REGARDING DECISIONS TO HAVE A RECOVERY PLAN

Timing: Within 90 days of receiving this advice – although earlier approval will allow some recovery plans to proceed for adoption under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act).

Purpose: To seek your agreement to resolve outstanding administrative matters concerning decisions to have/not have recovery plans for threatened species and ecological communities.

Background:

- Previously under the EPBC Act recovery plans were required for all listed threatened species and ecological communities.
- Following amendments to the Act in 2007, you are now required to make a decision about whether or not a recovery plan is required for each species or community.
- As provided for by the transitional provisions of the *Environment and Heritage Legislation Amendment Act 2006* (EHLA Act), species or communities that did not have a recovery plan in place at the time of the amendments were placed on either the Recovery Planning Action Commenced List (if they had a plan in preparation) or the Recovery Planning Action Not Commenced List. These are referred to here as the *Commenced List* and the *Not Commenced List*.
- Species or communities on the *Commenced List* were deemed to have had a decision to have a recovery plan.
- Each species or community on the *Not Commenced List* was required to have a conservation advice in place by 31 December 2008, with this requirement having been met.
- In addition, for each species or community on the *Not Commenced List*, the Threatened Species Scientific Committee (TSSC) was to provide you with a recommendation about whether to have a recovery plan and you need to make this decision within 90 days of receiving the TSSC's recommendations.
- Section 269AA of the EPBC Act describes your obligations for deciding whether to have recovery plans for listed threatened species or ecological communities and subsection 269AA(3) requires you to have regard to the recommendations made by the TSSC in making initial recovery plan decisions for such entities.
- The TSSC has now considered whether recovery plans are needed for all entities with outstanding decisions and agreed to the recommendations below being put to you.
- Under subsection 269AA(9) of the EPBC Act, you must publish a decision whether to have a recovery plan and the reasons for it. The publication must be made in a way that you consider appropriate.

UNCLASSIFIED

Issues/ Sensitivities:

There are three administrative matters requiring resolution:

- Firstly, the statutory deadline by which the TSSC was to provide you with advice about whether to have a recovery plan for each entity on the *Not Commenced List* (31 December 2008) has passed. Background on the reasons for this and the way forward are provided in Attachment A.
- Secondly, at the time the above lists were published, some species or communities were not included or incorrectly included on a list. Further background and details are provided in Attachments A, B and C.
- s22 [REDACTED]
- Recommendations for the resolution of these matters were agreed by the TSSC at its meeting of June 2009. Extracts of the relevant agenda item and minutes are provided at Attachment G.
- These administrative matters requiring resolution relate to the transitional provisions of the EHLA Act and are largely technical in nature. Publication of your decisions on the internet is considered sufficient and appropriate.

Recommendation/s:

- | | |
|---|---------------------------|
| 1. Approve publication on the department's internet of amended Recovery Planning Action Commenced and Not Commenced Lists as shown at <u>Attachments B and C</u> . | 1. Approved/ Not approved |
| 2. Under section 269AA of the EPBC Act, agree to not having a recovery plan at this time for species and ecological communities on the Recovery Planning Action Not Commenced List (except for those that have already had a decision) by signing the notice at <u>Attachment D</u> . | 2. Signed/ Not signed |
| 3. Under subsection 269AA(9) of the EPBC Act, agree to publication of the notice at <u>Attachment D</u> on the department's internet site. | 3. Agreed/ Not agreed |

MINISTER
2009

ATTACHMENT A

Decision to have a recovery plan – administrative matters requiring resolution**Background**

1. Previously under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act), recovery plans were required for all listed threatened species and ecological communities (except those that were determined extinct or conservation dependant). The 2007 amendments to the EPBC Act however removed this mandatory requirement. The *Environment and Heritage Legislation Amendment Act (No.1) 2006* (EHLA Act) which made the amendments, included transitional provisions that established how listed species and ecological communities, without recovery plans at the time of commencement of the amendments, were dealt with under the amended EPBC Act.
2. The Threatened Species Scientific Committee (TSSC) was given six months from the commencement time of the EHLA Act to provide the Minister with the following two written lists:
 - ***Recovery Planning Action Commenced List*** – i.e. species/community for which recovery plan not yet made but work on development had started; and
 - ***Recovery Planning Action Not Commenced List*** – i.e. species/community for which recovery plan not yet made and not yet started.
3. The above lists were provided to the Minister in August 2007 and, under the provisions of the EHLA Act, have been published on the Internet. As required under subsection 273(1) of the EPBC Act a recovery plan must be in force within three years of the decision under section 269AA. Those species/ecological communities on the Commenced List are required to have a recovery plan in place by August 2010.
4. Once the Recovery Planning Action Commenced List (the '*Commenced List*') was published the transitional provisions applied to deem a decision to have a recovery plan to have been made under section 269AA of the EPBC Act, for the species and communities on the *Commenced List*. This is a prerequisite to the actual making of a decision to make or adopt a recovery plan under EPBC Act section 269A.
5. The amended EPBC Act requires the TSSC to give the Minister material of the kind referred to in paragraphs 189(1B)(b) (i.e. conservation advices) and (c) (i.e. a recommendation on the question whether there should be a recovery plan) for each species or community on the Recovery Planning Action Not Commenced List (the '*Not Commenced List*'). Also, the transitional provisions of the EHLA Act required the TSSC to specify the time (the *compliance time*) by which it would give the Minister this material. This was agreed by the Minister to be 31 December 2008 for all entities on the list.
6. Advice from the Department's Legislation Policy Section is that the *Commenced* and *Not Commenced Lists* are statutory lists, but are not legislative instruments. They could be viewed practically as administrative guidelines for both the TSSC and the Department.

7. The transitional provisions of the EHLA Act contain no provisions on amending the *Commenced* and *Not Commenced Lists* to correct any inaccuracies or mistakes that occurred at the time they were made. Despite the uncertainty of whether the lists can be amended, the Legislation Policy Section considered it open for the TSSC to amend the lists as the preferable way of rectifying the problems at hand. If the amended lists are provided to the Minister, and the necessary publication occurs on the Department's internet, then the transitional provisions in the EHLA Act will be able to operate in relation to the amended items on each list.

Matters for resolution

8. Current recovery plan administrative matters requiring resolution are as follows:
 - Decision/s still required by the Minister on whether or not there should be a recovery plan for each species or community on the *Not Commenced List*.
 - Some species/ecological communities not included or incorrectly included on a list.
 - s22

Outstanding recovery plan decisions

9. While conservation advices have been approved for all species and communities requiring a conservation advice on the *Not Commenced List*, material concerning the decision about recovery plans has only been provided for seven of these and the deadline by which the TSSC was to provide the Minister with recovery plan recommendations for the others (31 December 2008) has passed.
10. One of the reasons for this relates to the desire to take a more strategic landscape approach to recovery plan decision-making and to factor in the experience gained from the pilot program being undertaken on regional recovery plans. It has also taken some time to identify all of the EPBC-listed threatened species covered by the various regional recovery plans in preparation and which of these species are endemic to the relevant regions. Legal advice also had to be sought on issues associated with part-range recovery plans.
11. The Department's preferred option for handling the 707 outstanding decisions required was that the TSSC agree to recommend that the Minister decide not to have a recovery plan for each of the 707 species/ecological communities at this time. The option for the Minister to decide at a later date to have a recovery plan for a listed threatened entity would remain available under section 269AA(4) of the EPBC Act (making a subsequent recovery plan decision). This could then be based on the best available information, including lessons being learned through the regional recovery plan pilot program and ongoing refinement of the Department's decision support tool for deciding on whether or not to have a recovery plan. The TSSC agreed to this approach at its 39th meeting in June 2009.

Species not included or incorrectly included on *Commenced/Not Commenced Lists*

12. Of all the listed threatened species or ecological communities that did not have recovery plans in place at the time of the amendments, 17 species did not appear on either the *Commenced List* or the *Not Commenced List*, and two species appeared on both lists. Furthermore, three species that had recovery plans in place (*Thelymitra jonesii*, *Zieria parrisiae* and *Z. prostrata*) were mistakenly included on one of the lists and four Western Australian species that had individual recovery plans in preparation should have been on the original *Commenced List* (i.e. *Calectasia cyanea*, *Gyrostemon reticulatus*, *Haloragis platycarpa* and *Frankenia conferta*). These oversights occurred as a result of the short time available to put the two lists together.
13. A number of regional recovery plans planned for adoption under the EPBC Act were in preparation when the original *Commenced* and *Not Commenced Lists* were being developed. It was not clear at the time just which EPBC-listed threatened species were to be covered by these plans. Hence some of the species that should have been placed on the *Commenced List* were not. This has been rectified by ensuring that all such species endemic to these regions are now on the *Commenced List*, as they should always have been. This includes four species for the Adelaide and Mount Lofty Ranges region, 11 for the NSW/Qld Border Ranges Rainforests region, 23 species for the NSW Northern Rivers region and nine species for the Fitzgerald Biosphere region in WA.
14. In line with the above Legislation Policy Section Advice, the TSSC has agreed to the amended *Commenced* and *Not Commenced Lists* in accordance with whether recovery plans were in place, had commenced or not commenced as at August 2007. Details of all changes made to these lists are identified in Table 1.

s22

399.	<i>Nannoperca obscura</i>	Yarra Pygmy Perch
400.	<i>Nannoperca variegata</i>	Ewens Pygmy Perch, Golden Pygmy Perch, Variegated Pygmy Perch
401.	<i>Neoceratodus forsteri</i>	Australian Lungfish, Queensland Lungfish
402.	<i>Pristis microdon</i>	Freshwater Sawfish
403.	<i>Prototroctes maraena</i>	Australian Grayling
404.	<i>Scaturiginichthys vermeilipinnis</i>	Red-finned Blue-eye

No.	FAUNA- Gastropod Scientific name	Common Name
405.	<i>Adclarkia dawsonensis</i>	Boggomoss Snail, Dawson Valley Snail

No.	FAUNA- Invertebrates Scientific name	Common Name
406.	<i>Croitana aestiva</i>	Desert Sand-skipper
407.	<i>Dryococelus australis</i>	Lord Howe Island Phasmid, Land Lobster
408.	<i>Euploea alcatheae enastri</i>	Gove Crow Butterfly
409.	<i>Lissotes latidens</i>	Broad-tooth Stag Beetle, Wielangta Stag Beetle
410.	<i>Megascolides australis</i>	Giant Gippsland Earthworm
411.	<i>Placostylus bivaricosus</i>	Lord Howe Placostylus, Lord Howe Flax Snail
412.	<i>Synemon plana</i>	Golden Sun Moth

No.	FAUNA- Mammal Scientific name	Common Name
413.	<i>Bettongia lesueur lesueur</i>	Boodie, Burrowing Bettong
414.	<i>Bettongia lesueur</i> unnamed subsp.	Burrowing Bettong
415.	<i>Burramys parvus</i>	Mountain Pygmy-possum
416.	<i>Chalinolobus dwyeri</i>	Large-eared Pied Bat, Large Pied Bat

No.	FAUNA- Mammal Scientific name	Common Name
417.	<i>Dasyercus cristicauda</i>	Mulgara
418.	<i>Dasyercus hillieri</i>	Ampurta
419.	<i>Dasyurus hallucatus</i>	Northern Quoll
420.	<i>Dasyurus maculatus gracilis</i>	Spotted-tailed Quoll or Yarri
421.	<i>Dasyurus maculatus maculatus</i> (southeastern mainland population)	Spot-tailed Quoll, Spotted-tailed Quoll, Tiger Quoll (southeastern mainland population)
422.	<i>Dasyurus maculatus maculatus</i> (Tasmanian population)	Spot-tailed Quoll, Spotted-tailed Quoll, Tiger Quoll (Tasmanian population)
423.	<i>Isoodon obesulus obesulus</i>	Southern Brown Bandicoot
424.	<i>Lagostrophus fasciatus fasciatus</i>	Banded Hare-wallaby, Marnine, Munning
425.	<i>Melomys rubicola</i>	Bramble Cay Melomys
426.	<i>Myrmecobius fasciatus</i>	Numbat
427.	<i>Neophoca cinerea</i>	Australian Sea-lion
428.	<i>Nyctophilus timoriensis</i>	Eastern Long-eared Bat
429.	<i>Perameles bougainville bougainville</i>	Western Barred Bandicoot
430.	<i>Petaurus australis</i> unnamed subsp.	Fluffy Glider, Yellow-bellied Glider (Wet Tropics)
431.	<i>Petaurus gracilis</i>	Mahogany Glider
432.	<i>Petrogale lateralis hackettii</i>	Recherche Rock-wallaby
433.	<i>Petrogale lateralis lateralis</i>	Black-flanked Rock-wallaby
434.	<i>Petrogale lateralis</i> MacDonnell Ranges race	Black-footed Rock-wallaby, Warru
435.	<i>Petrogale lateralis pearsoni</i>	Pearson Island Rock-wallaby
436.	<i>Petrogale lateralis</i> West Kimberley race	Black-footed Rock-wallaby
437.	<i>Petrogale penicillata</i>	Brush-tailed Rock-wallaby
438.	<i>Phascogale calura</i>	Red-tailed Phascogale
439.	<i>Potorous tridactylus tridactylus</i>	Long-nosed Potoroo
440.	<i>Pseudocheirus occidentalis</i>	Western Ringtail Possum
441.	<i>Pseudomys australis</i>	Plain's Rat
442.	<i>Pseudomys fumeus</i>	Konoom, Smoky Mouse
443.	<i>Pseudomys oralis</i>	Hastings River Mouse
444.	<i>Pseudomys shortridgei</i>	Dayang, Heath Rat
445.	<i>Pteropus conspicillatus</i>	Spectacled Flying-fox
446.	<i>Pteropus poliocephalus</i>	Grey-headed Flying-fox
447.	<i>Saccolaimus saccolaimus nudicluniatus</i>	Bare-rumped Sheath-tail Bat
448.	<i>Sarcophilus harrisii</i>	Tasmanian Devil
449.	<i>Setonix brachyurus</i>	Quokka
450.	<i>Sminthopsis aitkeni</i>	Kangaroo Island Dunnart
451.	<i>Sminthopsis psammophila</i>	Sandhill Dunnart
452.	<i>Xeromys myoides</i>	False Water Rat

No.	FAUNA- Reptile Scientific name	Common Name
453.	<i>Aprasia parapulchella</i>	Pink-tailed Worm-lizard
454.	<i>Christinus guentheri</i>	Lord Howe Island Gecko
455.	<i>Denisonia maculata</i>	Ornamental Snake
456.	<i>Egernia rugosa</i>	Yakka Skink
457.	<i>Egernia stokesii aethiops</i>	Baudin Island Spiny-tailed Skink
458.	<i>Egernia stokesii badia</i>	Western Spiny-tailed Skink

No.	FAUNA- Reptile Scientific name	Common Name
459.	<i>Furina dunmalli</i>	Dunmall's Snake
460.	<i>Hoplocephalus bungaroides</i>	Broad-headed Snake
461.	<i>Niveoscincus palfreymani</i>	Pedra Branca Skink, Red-throated Skink
462.	<i>Pseudemoia lichenigera</i> = <i>Cyclodina lichenigera</i>	Lord Howe Island Skink

No.	Ecological Community
463.	Blue Gum High Forest of the Sydney Basin Bioregion
464.	Buloke Woodlands of the Riverina and Murray-Darling Depression Bioregions
465.	Cumberland Plain Woodlands
466.	Sedgelands in Holocene dune swales of the southern Swan Coastal Plain
467.	Silurian Limestone Pomaderris Shrubland of the South East Corner and Australian Alps Bioregions
468.	Turpentine-Ironbark Forest of the Sydney Basin Bioregion
469.	White Box - Yellow Box - Blakely's Red Gum Grassy Woodland and Derived Native Grassland
470.	Weeping Myall - Coobah - Scrub Wilga Shrubland of the Hunter Valley

ATTACHMENT C**Recovery Planning Action Not Commenced List (revised June 2009)**

No.	FLORA Scientific name	Common Name
1.	<i>Acacia ammophila</i>	
2.	<i>Acacia anomala</i>	Grass Wattle
3.	<i>Acacia aphylla</i>	Leafless Rock Wattle
4.	<i>Acacia araneosa</i>	Spidery Wattle, Balcanoona Wattle
5.	<i>Acacia aristulata</i> Maslin ms.	
6.	<i>Acacia awestoniana</i>	Stirling Range Wattle
7.	<i>Acacia brachypoda</i>	Western Wheatbelt Wattle
8.	<i>Acacia carneorum</i>	Needle Wattle, Dead Finish
9.	<i>Acacia chapmanii</i> subsp. <i>australis</i>	
10.	<i>Acacia chinchillensis</i>	
11.	<i>Acacia cochlocarpa</i> subsp. <i>velutinos</i>	Velvety Spiral Pod Wattle
12.	<i>Acacia crombiei</i>	Pink Gidgee
13.	<i>Acacia curranii</i>	Curly-bark Wattle
14.	<i>Acacia denticulosa</i>	Sandpaper Wattle
15.	<i>Acacia depressa</i>	Echidna Wattle
16.	<i>Acacia deuteroneura</i>	
17.	<i>Acacia flocktoniae</i>	
18.	<i>Acacia forrestiana</i>	Forest's Wattle
19.	<i>Acacia guyeri</i>	
20.	<i>Acacia handonis</i>	Hando's Wattle, Percy Grant Wattle
21.	<i>Acacia lauta</i>	
22.	<i>Acacia macnuttiana</i>	McNutt's Wattle
23.	<i>Acacia menzeli</i>	Menzels Wattle
24.	<i>Acacia praetermissa</i>	
25.	<i>Acacia pubifolia</i>	
26.	<i>Acacia purpureapetala</i>	
27.	<i>Acacia pygmaea</i>	Dwarf Rock Wattle
28.	<i>Acacia ramiflora</i>	
29.	<i>Acacia recurvata</i> R.Cowan & Maslin ms.	Recurved Wattle
30.	<i>Acacia solenota</i> = <i>Acacia</i> sp. Mclvor River (J.R.Clarkson 5475)	
31.	<i>Acacia</i> sp. Graveside Gorge (V.J. Levitzke 806) NT Herbarium	
32.	<i>Acacia unguicula</i>	
33.	<i>Acacia wardellii</i>	
34.	<i>Acriopsis javanica</i>	
35.	<i>Acronychia littoralis</i>	Scented Acronychia
36.	<i>Acrophyllum australe</i>	
37.	<i>Actephila foetida</i> [12078]	
38.	<i>Adenanthos pungens</i> subsp. <i>pungens</i>	
39.	<i>Adenanthos velutinus</i>	Velvet Woollybush

No.	FLORA Scientific name	Common Name
40.	<i>Allocasuarina defungens</i>	
41.	<i>Allocasuarina fibrosa</i>	Woolly Sheoak
42.	<i>Allocasuarina glareicola</i>	
43.	<i>Allocasuarina simulans</i>	
44.	<i>Allocasuarina thalassoscopica</i>	
45.	<i>Allocasuarina tortiramura</i>	Twisted Sheoak
46.	<i>Alloxylon flammeum</i>	Red Silky Oak, Queensland Waratah; Tree Waratah
47.	<i>Almaleea cambagei</i>	
48.	<i>Ammobium craspedioides</i>	Yass Daisy
49.	<i>Amphibromus fluitans</i>	River Swamp Wallaby-grass
50.	<i>Amyema scandens</i>	
51.	<i>Andersonia pinaster</i> Lemson ms. = <i>Andersonia pinaster</i>	
52.	<i>Angophora inopina</i>	
53.	<i>Anigozanthos viridis</i> subsp. <i>terraspectans</i>	Dwarf Green Kangaroo Paw
54.	<i>Anthocercis gracilis</i>	Slender Tailflower
55.	<i>Apatophyllum constablei</i>	
56.	<i>Apatophyllum olsenii</i>	
57.	<i>Aphanes pentamera</i>	
58.	<i>Apium prostratum</i> subsp. <i>phillipii</i> Keighery ms.	Fine-leaved Apium
59.	<i>Aponogeton bullosus</i>	
60.	<i>Aponogeton</i> sp. Innisfail (Innisfail live-bearing)= <i>Aponogeton proliferus</i>	
61.	<i>Archidendron lovelliae</i>	Bacon Wood
62.	<i>Archontophoenix myolensis</i>	The Myola Archontophoenix
63.	<i>Arenga australasica</i>	Australian Arenga Palm
64.	<i>Aristida granitica</i>	
65.	<i>Arthraxon hispidus</i>	Hairy-joint Grass
66.	<i>Asperula asthenes</i>	
67.	<i>Asplenium pellucidum</i>	
68.	<i>Asplenium wildii</i>	
69.	<i>Asterolasia nivea</i>	Bindoon Starbush
70.	<i>Astrotricha crassifolia</i>	
71.	<i>Astrotricha roddii</i>	
72.	<i>Atalaya collina</i>	
73.	<i>Atriplex infrequens</i>	
74.	<i>Babingtonia granitica</i>	
75.	<i>Babingtonia tozerensis</i>	
76.	<i>Baeckea kandos</i>	
77.	<i>Baloghia marmorata</i>	Marbled Baloghia, Jointed Baloghia
78.	<i>Banksia brownii</i>	Brown's Banksia, Feather-leaved Banksia
79.	<i>Banksia goodii</i>	Good's Banksia
80.	<i>Banksia sphaerocarpa</i> var. <i>dolichostyla</i>	Ironcaps Banksia
81.	<i>Banksia verticillata</i>	Granite Banksia, Albany Banksia, River Banksia
82.	<i>Basedowia tenerrima</i>	
83.	<i>Bertya pinifolia</i>	

No.	FLORA Scientific name	Common Name
84.	<i>Bertya</i> sp. Mt Ernest (G.Leiper AQ 507685)	
85.	<i>Bertya</i> sp. Winneba (D.Jermyn 31)	
86.	<i>Boronia adamsiana</i>	Barbalin Boronia
87.	<i>Boronia capitata</i> subsp. <i>capitata</i>	
88.	<i>Boronia deanei</i>	Deane's Boronia
89.	<i>Boronia gunnii</i>	Gunn's boronia
90.	<i>Boronia hemichiton</i>	Mt Arthur Boronia
91.	<i>Boronia hippopala</i>	Velvet Boronia
92.	<i>Boronia keysii</i>	Key's Boronia
93.	<i>Boronia revoluta</i>	Ironcap Boronia
94.	<i>Bosistoa selwynii</i>	Heart-leaved Bosistoa
95.	<i>Bosistoa transversa</i>	Three-leaved Bosistoa, Heart-leaved Bosistoa, Yellow Satinheart, Heart-leaved Bonewood
96.	<i>Bossiaea oligosperma</i>	
97.	<i>Bothriochloa biloba</i>	Lobed Blue-grass
98.	<i>Bothriochloa bunyensis</i>	Satin-top Grass
99.	<i>Brachychiton vitifolius</i>	
100.	<i>Brachyscias verecundus</i>	Ironstone Brachyscias
101.	<i>Brachyscome papillosa</i>	Mossgiel Daisy
102.	<i>Budawangia gnidioides</i>	Buddawangs Cliff-heath
103.	<i>Bulbophyllum globuliforme</i>	
104.	<i>Bulbophyllum gracillimum</i>	
105.	<i>Bulbophyllum longiflorum</i>	
106.	<i>Cadellia pentastylis</i>	Ooline
107.	<i>Cajanus mareebensis</i>	
108.	<i>Caladenia atroclavia</i>	
109.	<i>Caladenia bryceana</i> subsp. <i>cracens</i> Hopper & A.P.Brown ms.	
110.	<i>Caladenia carnea</i> var. <i>subulata</i>	Striped Pink Fingers
111.	<i>Caladenia christineae</i> Hopper & A.P.Brown ms.	Christine's Spider Orchid
112.	<i>Caladenia conferta</i>	Coast Spider Orchid
113.	<i>Caladenia dorrienii</i>	Cossack Spider-orchid
114.	<i>Caladenia excelsa</i> Hopper & A.P.Brown ms.	Giant Spider-orchid
115.	<i>Caladenia harringtoniae</i> Hopper & A.P.Brown ms.	Harrington's Spider-orchid
116.	<i>Caladenia hoffmanii</i> Hopper & A.P.Brown ms.	Hoffman's Spider-orchid
117.	<i>Caladenia wanosa</i>	Kalbarri Spider-orchid
118.	<i>Caladenia williamsiae</i>	Williams Spider Orchid
119.	<i>Calamus warburgii</i>	
120.	<i>Calectasia arnoldii</i> Dixon ms.	
121.	<i>Callistemon pungens</i>	
122.	<i>Callistemon</i> sp. Boulia (L.Pedley 5297)	
123.	<i>Callitriche cyclocarpa</i>	Western Water-starwort
124.	<i>Calochilus psednus</i>	Bearded Orchid
125.	<i>Calotis glandulosa</i>	Mauve Burr-daisy

No.	FLORA Scientific name	Common Name
126.	<i>Calytrix gurulmundensis</i>	
127.	<i>Canarium acutifolium</i> var. <i>acutifolium</i>	
128.	<i>Canthium costatum</i>

Environment Protection and Biodiversity Conservation Act 1999

**Notice of Initial Recovery Plan Decision
for Listed Threatened Species and Ecological Communities**

I, PETER ROBERT GARRETT, Minister for the Environment, Heritage and the Arts, under section 269AA of the Act, hereby decide not to have recovery plans for 707 threatened species and ecological communities listed under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act), as shown in Attachment 1.

In making this decision I took into account advice from the Threatened Species Scientific Committee and information provided by the department. Each of the threatened species and ecological communities to which this decision applies has an approved conservation advice, which I consider provides sufficient direction to implement priority actions and mitigate against key threats. For these reasons, I consider recovery plans are not necessary for these entities.

I note that while the decision applies at this time, the EPBC Act allows for subsequent decisions in relation to recovery plans, including a decision to have a recovery plan, to be made at any time. I also note that recovery plans may be species-specific or a multi-species regional plan.

This notice is effective from the date of its signing.

Dated this Seventeenth day of November 2009

Minister for the Environment, Heritage and the Arts

Attachments: 1. Threatened species and ecological communities for which it has been decided not to have a recovery plan.

670.	<i>Petrogale xanthopus xanthopus</i>	Yellow-footed Rock-wallaby (SA & NSW)
671.	<i>Pseudomys pilligaensis</i>	Pilliga Mouse
672.	<i>Rhinonictis aurantius</i> (Pilbara form)	Pilbara Leaf-nosed Bat
673.	<i>Sminthopsis griseoventer boullangerensis</i>	Boullanger Island Dunnart
674.	<i>Vombatus ursinus ursinus</i>	Common Wombat (Bass Strait)
675.	<i>Zyzomys maini</i>	Arnhem Rock Rat, Arnhem Land Rock-rat

No.	FAUNA- Reptiles Scientific name	Common Name
676.	<i>Anomalopus mackayi</i>	Long-legged Worm-skink
677.	<i>Aprasia pseudopulchella</i>	Flinders Ranges Worm-lizard
678.	<i>Aprasia rostrata rostrata</i>	Hermite Island Worm-lizard
679.	<i>Coeranoscincus reticulatus</i>	Three-toed Snake-tooth Skink
680.	<i>Ctenophorus yinnietharra</i>	Yinnietharra Rock-Dragon
681.	<i>Ctenotus angusticeps</i>	Airlie Island Ctenotus
682.	<i>Ctenotus lanceolini</i>	Lancelin Island Skink
683.	<i>Ctenotus zasticus</i>	Hamelin Ctenotus
684.	<i>Delma labialis</i>	Striped-tailed Delma

No.	FAUNA- Reptiles Scientific name	Common Name
685.	<i>Delma mitella</i>	Atherton Delma, Legless Lizard
686.	<i>Delma torquata</i>	Collared Delma
687.	<i>Diplodactylus occultus</i>	Yellow-snouted Ground Gecko
688.	<i>Egernia obiri</i>	Arnhem Land Egernia
689.	<i>Elseya belli</i>	Namoi River Elseya (Namoi River, NSW)
690.	<i>Elusor lavarackorum</i>	Gulf Snapping Turtle
691.	<i>Elusor macrurus</i>	Mary River Tortoise
692.	<i>Lerista allanae</i>	Allan's Lerista
693.	<i>Lerista vittata</i>	Mount Cooper Striped Lerista
694.	<i>Morelia olivacea barroni</i>	Olive Python (Pilbara subspecies)
695.	<i>Nephurus deleani</i>	Pernatty Knob-tail
696.	<i>Notechis ater ater</i>	Krefft's Tiger Snake (Flinders Ranges)
697.	<i>Ophidiocephalus taeniatus</i>	Bronzeback Snake-lizard
698.	<i>Paradelma orientalis</i>	Brigalow Scaly-foot
699.	<i>Rheodytes leukops</i>	Fitzroy Tortoise
700.	<i>Underwoodisaurus sphyrurus</i>	Border Thick-tailed Gecko

No.	Ecological Communities
701.	Perched Wetlands of the Wheatbelt region with extensive stands of living sheoak and paperbark across the lake floor (Toolibin Lake)
702.	Swamp Tea-tree (<i>Melaleuca irbyana</i>) Forest of South-east Queensland
703.	Temperate Highland Peat Swamps on Sandstone
704.	Thrombolite (microbial) community of coastal freshwater lakes of the Swan Coastal Plain (Lake Richmond)
705.	Upland Wetlands of the New England Tablelands (New England Tableland Bioregion) and the Monaro Plateau (South Eastern Highlands Bioregion)
706.	Iron-grass Natural Temperate Grassland of South Australia
707.	Peppermint Box (<i>Eucalyptus odorata</i>) Grassy Woodland of South Australia

ATTACHMENT G

**Extracts from Agenda Paper 10.3 and Minutes of 39th Threatened Species
Scientific Committee Meeting, 3-5 June 2009**

Extract from TSSC Agenda Paper 10.3 (Decision to have a recovery plan – some
issues)

It was recommended that the Committee agree to the following proposed actions:

1. Recommending that the Minister decide not to have a recovery plan at this time for each of the species/ecological communities on the Not Commenced List for which a decision is outstanding.
2. Amending the errors made in developing the Commenced and Not Commenced Lists in accordance with whether recovery plans were in place, had commenced or not commenced as at August 2007.

s22

Extract from TSSC minutes for Item 10.3

The Committee **noted** issues associated with the Recovery Planning Action Commenced and Not Commenced Lists.

The Committee **agrees** to the proposed actions and approach to rectify these issues.

The Committee **agrees** to amended Recovery Planning Action Commenced and Not Commenced Lists for recommendation to the Minister for publication and encourages the Department to review lists to ensure efficient and effective ways to advance conservation.
