Human Health

1a) Have any persons died during the voyage?	N
*1a.1) How many persons died?	
*1a.2) Did any of the deceased have any of the following in the 21 days prior to death: <ul style="list-style-type: none"> • Fever or suspected fever • Jaundice (yellowing of the eyes or skin) • A new rash • Unusual bleeding (from the eyes, nose or mouth) • A new coughing illness 	
1b) Have any persons (including those who have died or	N

disembarked) been unwell with a new illness in the past 21 days?		
*1b.1) How many persons?		
1b.2) Are any persons (including those who have died or disembarked) showing or have previously shown ANY of the following symptoms as part of a new illness in the past 21 days?		
*1b.2.1) Temperature of equal to or greater than 38° C (if no thermometer is available, any person suspected of having a temperature should be reported) or a history of fever (night sweats or chills)		
*1b.2.2) New coughing illness, sore throat, loss of taste/smell or shortness of breath (but not coughing or shortness of breath caused by an existing chronic disease e.g. asthma, heart disease, obesity, chronic bronchitis or emphysema)		
1c) Number of travellers on board	*Passenger no. 3315	*Crew no. 1145
2a) Have you suspected or confirmed that any crew member or passenger on board the vessel has or has had influenza?		N
2a.1) How many crew and passengers have had influenza-like illness during the current voyage and/or last 21 days? (Meets the clinical and epidemiological criteria in CDNA case definition or reasonable clinical suspicion)	Passenger no.	Crew no.
2a.2) How many people have been tested for influenza?	Passenger no.	Crew no.
2a.3) How many people have tested positive for influenza?	Passenger no.	Crew no.
2a.4) How many people have tested negative for influenza who also do not have an alternative diagnosis confirming the cause of their symptoms?	Passenger no.	Crew no.
2b) Are there cases of diarrhoea/gastroenteritis on your vessel that meets the case definition for a gastroenteritis outbreak requiring reporting in the state or territory of arrival?		N
2b.1) How many cases of diarrhoea and/or gastrointestinal illness have been recorded in the vessel's medical log during the currently voyage and/or the last 21 days?	Passenger no.	Crew no.
2b.2) Were there any reported breaches in food handling and/or sanitation protocols on board, which may lead to the spread of gastro-intestinal disease?		
Details		

Biofouling

BF1) Does the vessel have an effective biofouling management plan?

BF2) Has the vessel been cleaned of all biofouling within 30 days of arriving in Australia?

BF3) Does the vessel have an alternative biofouling management method that has been pre-approved by the department?

BF4) Do you intend to in-water (underwater) clean biofouling in Australia?

BF5) What date was the most recent full anti-fouling coat application, not including repairs?

BF6) What is the total effective service-life (in months) of the anti-fouling coating?

BF7) In the last year, how many times was the vessel moored, anchored, adrift or stationary in a single location for:

10 to 19 consecutive days?

20 to 29 consecutive days?

30 or more consecutive days?

BF8) Does your vessel have functioning biofouling treatment systems for all internal niche areas (i.e. sea chests), such as marine growth prevention systems?

BF9) What date was the vessel (including niche areas) most recently cleaned of all biofouling? (Leave blank if unknown)

Biosecurity

3) Are there any animals (including birds and/or fish) as ship's pets on board the vessel?

Type of Animal No. Description (including health condition)

3.1) Did any animals die during the current voyage?

3.1.1) How many animals died?

3.1.2) Describe how the dead animals were disposed

4) Were any other hitchhiker animals or birds detected on board the vessel?

Type of Animal No. Description (including health condition)

4.1) Did any animals die during the current voyage?

4.1.1) How many animals died?

4.1.2) Describe how the dead animals were disposed

5) After a visual self-inspection of the entire vessel, were any insects discovered on board during the current voyage?

Describe the type and number of insects, if they were alive or dead, and the location they were found.

NB: Please store live and dead insects in separate labelled bags in the fridge/freezer to be presented to Biosecurity officer on arrival

6) In the past 24 months was the vessel in a Russian Far East Port/s between 40 N, 60 N, *and west of 147 E during any period between 1 July and 30 September?

6.1) Please provide the names and dates of the ports visited

Port	Arrival Date	Departure Date	Time
------	--------------	----------------	------

6.2) Since the last visit to any Russian Port was the vessel inspected and cleared by an agricultural authority in Australia, Russia, Canada, New Zealand or the USA as free of Asian Gypsy Moth?

AGM Certificate No.	Country of Issue	Issue Date

7) Since the vessel's last trip to Australia has it carried, in the last 10 cargoes, any livestock, bulk seeds (including grain) or bulk meal (being meal that contains plant, animal, fish or bird material)?

Cargo - Commodity	Loading Port	Discharging Port	Discharge Date	Cleaning
-------------------	--------------	------------------	----------------	----------

8) Has the waste been secured in a container or sealed room to prevent leakage and access by animals and birds?

9) Do you intend to discharge waste in port?

Port-Arrival Date	Discharge Date	Estimated Volume (m3)
SYDNEY-19/01/2026	19/01/2026	180

10) Will any crew members sign off while the vessel is at berth or anchorage in Australian waters?

Port-Arrival Date	Disembark Date	Disembark Time	No. of Crew
SYDNEY-19/01/2026	19/01/2026	06:30:00	65
Biosecurity Item Declaration - Are the disembarking crew bringing any of these items with them to Australia?			
1) meat, poultry, fish, seafood, eggs, dairy, fruit, vegetables			N
2) jerky, biltong and other pork products			N

3) grains, seeds, bulbs, straw, nuts, plants, parts of plants, traditional medicines or herbs, wooden articles	N	
4) animals, parts of animals, animal products including equipment, pet food, eggs, biologicals, specimens, birds, fish, insects, shells, bee products	N	
5) soil, items with soil attached or used in freshwater areas such as sports/recreational equipment, shoes	N	
6) in the last 30 days, travel that involved contact with farms, farm animals, wilderness areas, or freshwater streams/ lakes etc.	N	

11) Do you intend to discharge any ballast water sourced in Australia during this voyage?

Port – Arrive/Anchorage Date

13a) Are there any live plants on board the vessel?
 13b) Have any live plants died during the voyage?
 13b.1) Have the dead plants been disposed of as Biosecurity waste?

Provide details of any live or dead plants including plant type and location, health and condition of the plants, how many plants dead or alive were disposed.

Good day Staff Captain s. 22(1)(a)(ii)

Please be informed that neither my team nor I received any call or notification regarding the presence of a bird onboard on Sunday, 18 January 2026.

Additionally, during our routine open deck inspection conducted on the same day, no bird was observed anywhere onboard.

Thank you.

Subject: AQ - Capture of a Seabird on board 18-Jan

Hi s. 22(1)(a)(ii)

I received a phone call from Biosecurity enquiring about a report of a seabird being captured on board on Sunday 18th while at sea.

Can you let me know if this was reported on board at all, many thanks
