

## Bivalve mollusc (shellfish) harvesting areas for export list

This list contains the name of shellfish harvest areas approved to supply shellfish for export. This list is referenced in Item 1 of subsection 2-4(1) of the Export Control (Fish and Fish Products) Rules 2021 (Fish Rules) and prepared in accordance with the definition of the Harvesting Areas (Shellfish for Export) List in section 1-6 of the Fish Rules.

The listed harvesting areas may provide bivalve molluscs for export (except to the United States of America or where Australia does not have market access) on the condition they are in the 'open' status at the time of harvesting in accordance with the Primary Production and Processing Standard for Seafood, standard 4.2.1 and as determined by the relevant State Shellfish Control Authorities .

Harvest areas approved to supply the European Union (EU) and the United Kingdom (UK) are listed at the end of this document.
