

Attachment 1: Table of updated dairy establishment registered operations for manufacturers

Registered Operations related to prescribed goods under Australian export legislation							
Current Registered Operation code	Current Registered Operation	What is changing?	New registered operation code (if applicable)	New Registered Operation (if applicable)	New registered operation description	Associated product types	Associated product category codes
PRFCHE PRPRCH PRSCHE PRSHCH PRHCHE PRVHCH	Producing fresh cheese Producing processed cheese Producing soft cheese Producing semi hard cheese Producing hard cheese Producing very hard cheese	If the establishment <u>only</u> performs cutting/shredding/wrapping/packaging of cheese products, then the new registered operation 'Cutting cheese and cheese products' is applicable. If the establishment is approved to make the cheese products, there is no change to the registered operation.	CUCHEE	Cutting cheese and cheese products	The establishment performs cutting/shredding/wrapping/packaging of cheese products that are made at another export-registered facility.	CTH (Cut cheese) SRC (Shredded cheese)	DC0453 Fresh cheese DC0178 Processed cheese DC0172 Soft cheese DC0375 Semi-hard cheese DC0188 Hard cheese DC0213 Very hard cheese DC1828 Mixed cheese pack
PRFCHE	Producing fresh cheese	If the cheese products are made at the establishment for export (not only cut/ shredded/ wrapped/ packaged) this registered operation is applicable.	PRFCHE	Producing fresh cheese	Fresh cheese, such as cottage cheese and ricotta cheese, is made at the establishment for export.	FCH (Fresh cheese)	DC0453 Fresh cheese
PRPRCH	Producing processed cheese	If the cheese products are made at the establishment for export (not only cut/ shredded/ wrapped/ packaged) this registered operation is applicable.	PRPRCH	Producing processed cheese	Processed cheese is made at the establishment for export.	PCH (Processed Cheese)	DC0178 Processed cheese
PRSCHE	Producing soft cheese	If the cheese products are made at the establishment for export (not only cut/ shredded/ wrapped/ packaged) this registered operation is applicable.	PRSCHE	Producing soft cheese	Soft cheese, such as brie, is made at the establishment for export.	SCH (Soft cheese)	DC0172 Soft cheese
PRSHCH	Producing semi-hard cheese	If the cheese products are made at the establishment for export (not only cut/ shredded/ wrapped/ packaged) this registered operation is applicable.	PRSHCH	Producing semi-hard cheese	Semi-hard cheese, such as mozzarella, is made at the establishment for export.	SHC (Semi hard cheese)	DC0375 Semi-hard cheese
PRHCHE	Producing hard cheese	If the cheese products are made at the establishment for export (not only cut/ shredded/ wrapped/ packaged) this registered operation is applicable.	PRHCHE	Producing hard cheese	Hard cheese, such as cheddar cheese, is made at the establishment for export.	HCH (Hard cheese)	DC0188 Hard cheese
PRVHCH	Producing very hard cheese	If the cheese products are made at the establishment for export (not only cut/ shredded/ wrapped/ packaged) this registered operation is applicable.	PRVHCH	Producing very hard cheese	Very hard cheese, such as parmesan cheese, is made at the establishment for export.	VHC (Very hard cheese)	DC0213 Very hard cheese
PRCHBD PRYOBD	Producing cheese based dip Producing yoghurt based dip	‘Producing dairy based dip’ replaces 'Producing cheese based dip' and 'yoghurt based dip.' If the establishment's export registration included 'Producing cheese based dip' or 'yoghurt based dip' the new registered operation is applicable.	PRDABD	Producing dairy based dip	Dairy based dip, such as cheese-based dip and yoghurt-based dip, is made at the establishment for export.	DBD (Dairy Based Dip)	DC1823 Cheese based dip DC1824 Yoghurt based dip DC1830 Mixed dip pack
PRYOGT	Producing yoghurt	‘Producing fermented milk products’ replaces 'Producing yoghurt.' If the establishment's export registration included 'producing yoghurt' the new registered operation is applicable.	PRFMPR	Producing fermented milk products	Fermented products, such as yoghurt, buttermilk, and kefir, are made at the establishment for export.	FMP (Fermented Milk Products)	DC0111 Yoghurt DC1859 Flavoured yoghurt DC0340 Drinking yoghurt DC0022 Buttermilk DC1861 Kefir DC1885 Yoghurt Powder
FRDYPR	Freeze dry dairy produce	‘Freeze dry dairy products’ replaces 'Freeze dry dairy produce.’ If the establishment's export registration included 'Freeze dry dairy produce' the new registered operation is applicable.	FRDYPD	Freeze dry dairy products	Freeze dried dairy products are made at the establishment, using a freeze drier, for export.	FZD (freeze dried dairy)	DC1846 Freeze dried cheese DC1864 Freeze dried milk DC1863 Freeze dried Lactoferrin
PRCMIL	Producing condensed milk and condensed milk products	‘Producing milk concentrate’ replaces 'Producing condensed milk and condensed milk products.' If the establishment's export registration included 'Producing condensed milk and condensed milk products' the new registered operation is applicable.	PRMLCN	Producing milk concentrate	Milk concentrate products, such as milk concentrate, condensed milk and evaporated milk, are made at the establishment for export.	MLC (milk concentrate)	DC0036 Condensed milk DC0037 Evaporated milk DC1842 Milk concentrate

Current Registered Operation code	Current Registered Operation	What is changing?	New registered operation code (if applicable)	New Registered Operation (if applicable)	New registered operation description	Associated product types	Associated product category codes
PRDMIL	Producing dried milk and dried milk products	If the establishment <u>only</u> blends dried milk products, the new registered operation 'Blending dried milk and dried milk products' is applicable. If the establishment is approved to make the dried milk powder products, there is no change to the registered operation.	BLDMIL	Blending dried milk and dried milk products	The establishment carries out blending of milk powder ingredients and does not make the products through a separate process (e.g., using a spray drier to make dried milk and dried milk products). This operation excludes infant formula.	MPB (Milk powder blend)	DC0078 Milk powder blend DC0123 Buttermilk powder DC0783 Milk calcium DC0076 Milk powder DC0999 Milk protein concentrate DC0671 Acid casein DC0318 Casein products DC1845 Caseinate products DC0390 Recaldent DC0316 Rennet casein DC1205 Sodium caseinate DC0467 Lactoferrin DC0272 Lactose DC0139 Whey powder DC0332 Whey protein concentrate DC0176 Cheese powder
PRDMIL	Producing dried milk and dried milk products	‘Producing dried milk and dried milk products’ previously included blending dried milk products which is now a separate operation. If the establishment is approved to make dried milk powder products (does not only blend the products) this registered operation is applicable. If the milk powder is only blended at the establishment, 'Blending dried milk and dried milk products' is applicable.	PRDMIL	Producing dried milk and dried milk products	Dried milk and dried milk products are made at the establishment, using special equipment, such as a spray drier, to turn milk or milk derivative to powder.	DML (Milk powder)	DC0123 Buttermilk powder DC0783 Milk calcium DC0076 Milk powder DC0999 Milk protein concentrate DC0078 Milk powder blend DC0318 Casein Products DC0139 Whey Powder DC1719 Driphorm HDHA 50 (milk powder encapsulated fish oil - only considered a prescribed dairy product by specific countries).
PRMILK	Producing milk and milk products	Extended shelf-life (ESL) milk was previously included under 'Producing milk and milk products' but is now a separate registered operation. If the establishment is approved to make ESL milk, the new registered operation is applicable. 'Producing milk and milk products' still applies to establishments making other milk products.	PRESLM	Producing extended shelf-life milk	Extended shelf-life milk is made at the establishment for export.	ESL (Extended shelf-life milk)	DC1831 Extended shelf-life liquid milk
PRMILK	Producing milk and milk products	High pressure pasteurised milk was previously included under 'Producing milk and milk products' but is now a separate registered operation. If the establishment is approved to make high pressure pasteurised milk, the new registered operation is applicable. 'Producing milk and milk products' still applies to establishments making other milk products.	PRHPPM	Producing High Pressure Pasteurised milk	High Pressure Pasteurised milk is produced at the establishment for export.	HPP (High Pressure Pasteurised)	DC1855 High pressure pasteurised liquid milk
PRMILK	Producing milk and milk products	‘Producing milk and milk products' previously included extended shelf-life milk and high-pressure pasteurised milk which are now separate registered operations.	PRMILK	Producing milk and milk products	Milk and milk products are produced at the establishment for export.	MIL (Milk)	DC0018 Flavoured milk DC0020 Liquid milk DC1881 Liquid ice-cream mix
PRINFA PRINFL	Producing infant powder Producing liquid infant formula	'Producing infant formula' replaces 'Producing infant powder' and includes stage 1-3 infant formula. If the establishment's export registration included 'Producing infant powder' this registered operation is applicable.	PRINFO	Producing infant formula	Infant formula, including stage 1, 2 and 3 powder formula, is made or blended at the establishment for export.	INP (Infant Formula - Powder)	DC0279 Infant formula-Stage 1 DC1037 Follow -on formula-Stage 2 DC1038 Growing up formula-Stage 3

Current Registered Operation code	Current Registered Operation	What is changing?	New registered operation code (if applicable)	New Registered Operation (if applicable)	New registered operation description	Associated product types	Associated product category codes
PRWHEY	Producing whey and whey products	Lactoferrin was previously included under 'Producing whey and whey products' but is now a separate registered operation. If the establishment is approved to make lactoferrin, the new registered operation is applicable. 'Producing whey and whey products' still applies to establishments making other whey products. (Note, if the establishment <u>only</u> blends lactoferrin or whey powder products, 'Blending dried milk and dried milk products' is applicable).	PRLACF	Producing lactoferrin	Lactoferrin is made at the establishment for export.	LAC (lactoferrin) LAP (lactoferrin peroxidase)	DC0467 Lactoferrin DC0468 Lactoferrin Peroxidase
PRLWHE	Producing liquid whey protein concentrate	‘Producing whey and whey products' now includes liquid whey and replaces 'Producing liquid whey protein concentrate.' If the establishment's export registration included 'Producing liquid whey protein concentrate' the new registered operation is applicable.	PRWHEY	Producing whey and whey products	Whey and whey products, such as whey powder, liquid whey and whey protein concentrate, are made at the establishment for export.	WEY (Whey)	DC0139 Whey powder DC0332 Whey protein concentrate DC1865 Liquid whey
PRDMEM	Producing membrane and ultrafiltration products	‘Producing lactose' replaces 'Producing membrane and ultrafiltration products,' where lactose is produced through that process. If the establishment is approved to make lactose the new registered operation is applicable.	PRLACT	Producing lactose	Lactose is made at the establishment for export.	LCT (lactose)	DC0272 Lactose
PRDMEM	Producing membrane and ultrafiltration products	‘Producing milk minerals' replaces 'Producing membrane and ultrafiltration products,' where milk minerals are produced through that process. If the establishment is approved to make milk minerals, the new registered operation is applicable.	PRMLMN	Producing milk minerals	Milk minerals are made at the establishment for export.	MNL (Milk minerals)	DC1862 Milk Minerals
PRCASP	Producing casein & related products	If the establishment is approved to make casein products, there is no change to the registered operation. If the establishment only blends casein, registered operation 'Blending dried milk and dried milk products' is applicable.	PRCASP	Producing casein & related products	Casein and related products are made at the establishment for export. If the establishment only blends casein, the registered operation 'Blending dried milk and dried milk products' is applicable.	CAS (Casein)	DC0671 Acid casein DC0318 Casein products DC1845 Caseinate products DC0390 Recaldent DC0316 Rennet casein DC1205 Sodium caseinate
PRDSTL PRDSTP	Producing stockfood (liquid) Producing stockfood (powder)	‘Producing animal feed’ replaces 'Producing stockfood (liquid)’ and 'Producing stockfood (powder).’ If the establishment’s export registration included ‘Producing stockfood (liquid)’ or 'Producing stockfood (powder)’ the new registered operation is applicable.	PRDDAF	Producing dairy animal feed	Animal feed which is not for human consumption is made at the establishment, noting this operation can only be added if the export registration already includes dairy export registered operations.	DAF (Dairy Animal Feed)	DC1866 Dairy animal feed liquid - not for human consumption DC1867 Dairy animal feed powder - not for human consumption DC1879 Dairy animal feed other - not for human consumption DC1886Dairy animal feed liquid (Japan)-cloven hoof - not for human consumption DC1887Dairy animal feed powder (Japan)-cloven hoof - not for human consumption DC1888Dairy animal feed other (Japan)-cloven hoof - not for human consumption DC1889Dairy animal feed liquid (Japan)- non-cloven hoof - not for human consumption DC1891Dairy animal feed other (Japan)- non-cloven hoof - not for human consumption DC1892Dairy animal feed powder (Japan)-non-cloven hoof - not for human consumption

Current Registered Operation code	Current Registered Operation	What is changing?	New registered operation code (if applicable)	New Registered Operation (if applicable)	New registered operation description	Associated product types	Associated product category codes
PRCHEP	Producing cheese powder	If the establishment is approved to make cheese powder, there is no change to the registered operation. If the establishment <u>only</u> blends cheese powder, registered operation 'Blending dried milk and dried milk products' is applicable.	PRCHEP	Producing cheese powder	Cheese powder is made at the establishment for export.	CHP (Cheese powder)	DC0176 Cheese powder
PRBUTT	Producing butter and butter products	No change	PRBUTT	Producing butter and butter products	Butter and butter products are made at the establishment for export.	BUT (butter)	DC0152 Anhydrous milk fat DC0341 Butter DC0328 Butter blend DC0153 Ghee DC0420 Whey butter
PRCREA	Producing cream and cream products	No change	PRCREA	Producing cream and cream products	Cream and cream products are made at the establishment.	CRE (Cream)	DC0026 Cream DC0027 Sour cream
PRDDES	Producing dairy desserts	No change	PRDDES	Producing dairy desserts	Dairy desserts are made at the establishment for export, excluding cheesecakes, bavarian desserts and similar desserts which are only prescribed if required to meet importing country requirements.	DES (Dairy Desserts)	DC0106 Dairy based dessert
PRDYSA	Producing dairy-based sauces	No change	PRDYSA	Producing dairy-based sauces	Dairy based sauce (sauce which is comprised of majority dairy ingredients) is made at the establishment for export.	DSA (Dairy Based Sauces)	DC0348 Dairy sauce
PRECDY	Producing EU composite products	No change	PRECDY	Producing EU composite products	Non-prescribed products which are subject to EU specific requirements including products which contain any dairy and require refrigeration or freezing are made at the establishment for export.	ECD (EU composite products)	DC1841 EU composite dairy products
PRGOSA	Producing galacto-oligosaccharide	No change	PRGOSA	Producing galacto-oligosaccharide	Galacto-oligosaccharide is made at the establishment for export.	GOS (Galacto-oligosaccharide)	DC1293 Galacto-Oligosaccharide
PRUHTC	Producing UHT cream & cream products	No change	PRUHTC	Producing UHT cream & cream products	UHT cream and cream products are made at the establishment for export.	UHC (UHT cream & cream products)	DC0333 UHT Cream
PRUHTP	Producing UHT milk products	No change	PRUHTP	Producing UHT milk products	UHT milk products are made at the establishment for export.	UHT (UHT milk and milk products)	DC1840 UHT flavoured milk DC0004 UHT liquid milk
PRUHTY	Producing UHT yoghurt	No change	PRUHTY	Producing UHT yoghurt	UHT yoghurt is made at the establishment.	UHY (UHT yoghurt)	DC0119 UHT yoghurt
N/A	N/A	New registered operation	PRTHPD	Producing thermal processing dairy	Dairy products produced under approved thermal processing operations.	TPD (Thermal Processing Dairy)	DC0178 Processed cheese DC0172 Soft cheese
N/A	N/A	New registered operation	FPRMIL	Further processing raw milk	Raw milk exported as not for human consumption - for further processing only.	RMF (Raw Milk Further processing)	DC1880 Raw milk for further processing
N/A	N/A	New registered operation	PRRMCH	Producing Raw Milk Cheese	Raw milk cheese is made at the establishment- restricted exports subject to individual country approval.	RMC (Raw Milk Cheese)	DC1882 Raw milk cheese
N/A	N/A	New registered operation	PRCCCH	Producing Cooked Curd Cheese	Cooked curd cheese is made at the establishment- restricted exports subject to individual country approval.	CCC (Cooked Curd Cheese)	DC1883 Cooked Curd Cheese
N/A	N/A	New registered operation	FRPCRE	Further processing raw cream	Raw cream not for human consumption- for further processing only.	N/A – not for direct export	N/A – not for direct export
N/A	N/A	New registered operation	PRPERM	Producing Permeate	Permeate is made at the establishment for export.	N/A – not for direct export	N/A – not for direct export

Registered Operations related to prescribed goods when required by importing country requirements.							
Current Registered Operation code	Current Registered Operation	What is changing?	New registered operation code (if applicable)	New Registered Operation (if applicable)	New registered operation description	Associated product types	Associated product category codes
PRICEC	Producing icecream mix and related products	‘Producing ice-cream’ replaces ‘Producing icecream mix and related products.’ If the establishment’s export registration included ‘Producing icecream mix and related products’ the new registered operation is applicable.	PRICEA	Producing ice-cream	Ice-cream is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	ICE (Icecream)	DC0292 Ice cream
PRGMPP PRSMPP	Producing goat milk powder products Producing sheep milk powder products	If the establishment <u>only</u> blends non-bovine (e.g., goat or sheep) milk powder products, the new registered operation ‘Blending dried milk products - non-bovine’ is applicable. If the establishment is approved to make the non-bovine milk powder products, there is no change to the registered operations.	BLNMIL	Blending dried milk products - non-bovine	The establishment carries out blending non-bovine milk powder ingredients (e.g. goat or sheep milk powder products) for export to <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good) and does not make the products through a separate process, e.g. using a spray drier to make non-bovine dried milk and dried milk products.	GMP (Goat milk powder) SMP (Sheep Milk Powder)	DC1618 Goat milk powder  DC1797 Sheep milk powder
PRGMPP	Producing goat milk powder products	Producing ‘goat milk powder products’ previously included blending goat milk powder products which is now a separate operation. If the establishment is approved to make goat milk powder products (does not only blend the products) this registered operation is applicable.	PRGMPP	Producing goat milk powder products	Goat milk powder products are made at the establishment for export (using special equipment, such as a spray drier, to turn goat milk or goat milk derivative to powder) to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	GMP (Goat milk powder)	DC1618 Goat milk powder
PRSMPP	Producing sheep milk powder products	Producing ‘sheep milk powder products’ previously included blending sheep milk powder products which is now a separate operation. If the establishment is approved to make sheep milk powder products (does not only blend the products) this registered operation is applicable.	PRSMPP	Producing sheep milk powder products	Sheep milk powder products are made at the establishment for export (using special equipment, such as a spray drier, to turn sheep milk or sheep milk derivative to powder) to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	SMP (Sheep milk powder)	DC1797 Sheep milk powder
FRCAMM	Freeze dry camel milk	‘Freeze dry dairy products - non-bovine’ replaces 'Freeze dry camel milk.' If the establishment is approved to make freeze dried non-bovine dairy products for export the new registered operation is applicable.	FRDPNB	Freeze dry dairy products - non-bovine	Freeze dried non-bovine dairy products are made at the establishment, using a freeze drier, for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	FZC (Freeze dried camel milk)	DC1857 Freeze dried camel milk
PRBUMC	Producing buffalo milk cheese	No change	PRBUMC	Producing buffalo milk cheese	Buffalo milk cheese is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	BMC (Buffalo milk cheese)	DC0413 Buffalo milk cheese DC1860 Buffalo and bovine milk cheese
PRBUMI	Producing buffalo milk	No change	PRBUMI	Producing buffalo milk	Buffalo milk is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	BMI (Buffalo milk)	DC1829 Buffalo milk
PRBUMY	Producing buffalo milk yoghurt	No change	PRBUMY	Producing buffalo milk yoghurt	Buffalo milk yoghurt is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	BMV (Buffalo milk yoghurt)	DC0415 Buffalo milk yoghurt

Current Registered Operation code	Current Registered Operation	What is changing?	New registered operation code (if applicable)	New Registered Operation (if applicable)	New registered operation description	Associated product types	Associated product category codes
PRCMM	Producing camel milk products	No change	PRCMM	Producing camel milk products	Camel milk is produced at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	CAM (Camel milk)	DC1826 Camel milk
PRCOLO	Producing colostrum	No change	PRCOLO	Producing colostrum	Colostrum is produced at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	COL (Colostrum Liquid) COP (Colostrum powder)	DC0380 Colostrum liquid  DC0823 Colostrum powder
PRGINF	Producing goat infant formula	No change	PRGINF	Producing goat infant formula	Goat infant formula is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	GIF (Goat infant formula)	DC1787 Goat infant formula- Stage 1 DC1789 Goat follow - on formula- Stage 2 DC1788 Goat growing up formula- Stage 3
PRGMIL	Producing goat milk	No change	PRGMIL	Producing goat milk	Goat milk is produced at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	GMK (Goat milk)	DC1836 Liquid goat milk
PRGMCH	Producing goat milk cheese	No change	PRGMCH	Producing goat milk cheese	Goat milk cheese is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	GMC (Goat milk cheese)	DC0451 Goat milk cheese
PRGMYO	Producing goat milk yoghurt	No change	PRGMYO	Producing goat milk yoghurt	Goat milk yoghurt is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	GMY (Goat milk yoghurt)	DC1781 Goat milk yoghurt
PRSMCH	Producing sheep milk cheese	No change	PRSMCH	Producing sheep milk cheese	Sheep milk cheese is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	SMC (Sheep milk cheese)	DC0983 Sheep milk cheese
PRSMIL	Producing sheep milk	No change	PRSMIL	Producing sheep milk	Sheep milk is produced at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	SMK (Sheep milk)	DC1684 Sheep milk
PRSMYO	Producing sheep milk yoghurt	No change	PRSMYO	Producing sheep milk yoghurt	Sheep milk yoghurt is made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	SMY (Sheep milk yoghurt)	DC1685 Sheep milk yoghurt
N/A	N/A	New registered operation	PRGUMP	Producing UHT goat milk products	UHT goat milk products are made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	GUM (UHT goat milk)	DC1572 UHT goats milk
N/A	N/A	New registered operation	PRDBMA	Producing Dairy Based Margarine	Dairy based margarine products are made at the establishment for export to the <a href="#">relevant countries</a> (for export to other countries, this product is considered a non-prescribed good).	DBM (Dairy Based Margarine)	DC1884 Dairy based margarine
