Enhancement

Introduction of the Industry Reporting - Biosecurity Cargo Status Tracker (BCST)

The Biosecurity Portal Digital ID (myID) pathway landing page has been updated to include an additional tile for 'Industry reporting' (Biosecurity Cargo Status Tracker (BCST)).

Biosecurity Portal users who are logged in via the Digital ID (myID) pathway and are accredited for the Approved Arrangement Class 19 are able to access the Biosecurity cargo status tracker via a new 'Industry Reporting' tile on the Biosecurity Portal landing page – see Figures 1, 2 and 3 for reference.

BCST users can have visibility over their in-progress consignments that are referred to the department.

Note: BCST has no impact on current operations, and the reporting is an optional tool to assist in having visibility over the consignments with the department.
