Biosecurity Portal Terms and Definitions Purpose of this document

This document provides a list of common terms and definitions used in the Biosecurity Portal and their meaning.

Term	Definition
Agriculture Import Management System (AIMS)	The departments import management system to manage risk and record biosecurity actions for individual <i>Full Import Declaration</i> cargo consignments.
Approved Arrangements	An arrangement that allows operators to manage biosecurity risk and/or perform the documentary assessment of goods in accordance with department's requirements, using their own sites, facilities, equipment and people, without constant supervision by the department and with occasional compliance monitoring or auditing.
Approved Arrangement Management Product (AAMP)	Provides an easy online way for Biosecurity Industry Participants (BIPs) to view and update the details of their Approved Arrangements. It will minimise the need for BIPs to email the department with requests to update their Approved Arrangement details, simplifying and modernising Approved Arrangement administration.
Biosecurity Portal	An authenticated online portal for digital services offered by the department.
Biosecurity Portal Administrator (Authorised Administrator) Biosecurity Portal User	A role assigned to an individual in the Biosecurity Portal enabling them to perform the following actions: • View and manage their individual profile. • View and manage a business profile. • View and manage Users and access to services. • Access secure services A role assigned to an individual in the Biosecurity Portal enabling
biosecumy i ortai osei	 them to perform the following actions: View and manage their individual profile. View linked business profile/s. Access and perform services approved by the Biosecurity Portal Administrator for the business they are representing.
Biosecurity Cargo Status Tracker	Provides, via interactive online reports, details of all entries in progress that have been referred to the department for biosecurity assessment or management under an approved arrangement class 19. This means class 19 approved arrangement operators can self-service and check on the status of their consignments without having to call the department.
Booking	The date, time and location of an inspection scheduled by the department in response to a 'request for inspection' lodged by a client, and any relevant information related specifically to the booking.
Booking modification	A request for a new date / time window or the 'To meet' requirements of an existing booking. This function is only available via the digital (myID) channel.

OFFICIAL

Term	Definition
