HOW TO RECYCLE

Separate, sort, store and label materials correctly

1 Separate and sort

Keep recycable materials separate from other waste.

Bottles

Aluminium

Plastic bottles and cups

Hard plastic containers

Steel and tin cans

Paper and cardboard

2 Use the right containers

Keep different types of recycling in separate containers.

Bins

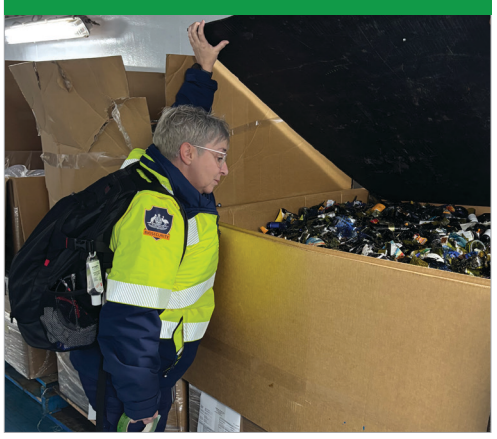

Bags

Bulk bags

Bulk boxes

3 Label clearly

Affix a recycling label on at least 2 visible sides of each bin, bag, bulk bag or box or pallet.

Not to be affixed to any waste directed for biosecurity disposal.

4 Check before storage

Empty

Wash

Recycle

Recyclable materials used for eggs, dairy, meat or seafood, honey and raw fruit or vegetables **cannot be recycled**. These materials must be managed as biosecurity waste through an Approved Arrangement, or another arrangement approved by the department.
