

Australian Government

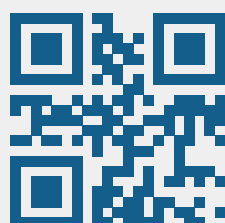

Antibiotics  
Antivirals  
Antifungals  
Antiparasitics

**Antimicrobial resistance** can affect pets and result in reduced animal health and welfare. Help reduce your pet's need for antibiotics through routine vaccination, a clean environment and good nutrition.

Australian Government

Antibiotics  
Antivirals  
Antifungals  
Antiparasitics

**Antimicrobial resistance** is a serious and long-term threat to human and animal health worldwide as bacteria and viruses become resistant to antimicrobial treatments.
