

29 September 2021

Export advisory notice 2021/18

Notification of publication of 2022 International Air Transport Association (IATA) standard in Live Animal Regulations (LAR)

Species: Livestock exported by air

Countries: All

Attention

- Livestock exporters
- Department officers

Purpose

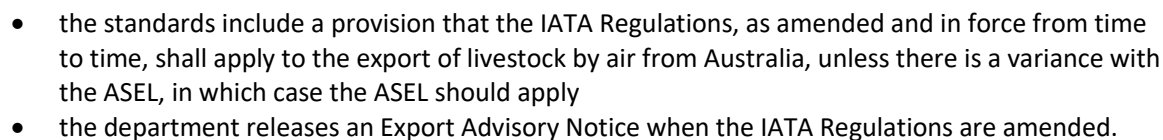

To advise stakeholders of the release of the 48th edition of the IATA LAR.

Key points

- Standard 6.1.13 of the Australian Standards for the Export of Livestock (ASEL) requires livestock exported by air to comply with the IATA LARs.
 - Where there is a variance between the IATA LAR and ASEL, ASEL applies.
- To obtain a copy of the 2022 edition of the IATA LARs, and download a list of significant changes and amendments, please visit iata.org/en/publications/store/live-animals-regulations/.
- The new edition will come into effect from 1 January 2022.
 - Until this time, the current LAR (47th edition) applies.

Background

This advice follows recommendations from the 2019 Technical Advisory Committee [Review of the Australian Standards for the Export of Livestock: Air Transport Review](#), that:

Kelly Porter

Director

Animal Welfare Branch

Department of Agriculture, Water and the Environment

Nicolas Rush
