

APPENDIX G

DISTFW NLFIT calibration plots for 95/96 wet season soil site data

Observed vs Predicted Time Series Plot for Response 1: Runoff #1

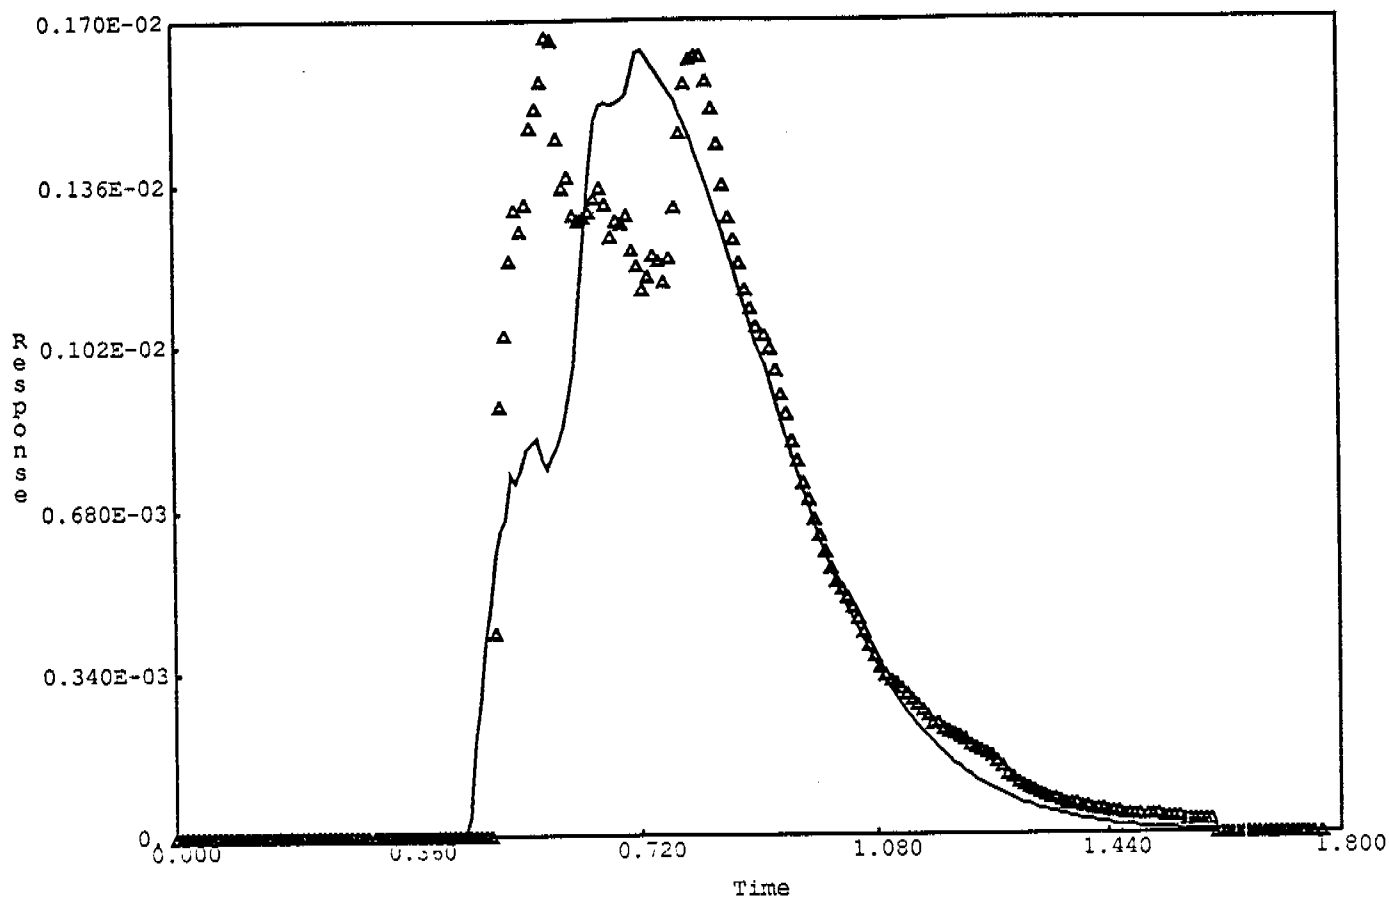

m011096.fw

monitored storm 10/1/96

calibrated with parameters contained in Table 2

Observed vs Predicted Time Series Plot for Response 1: Runoff #1

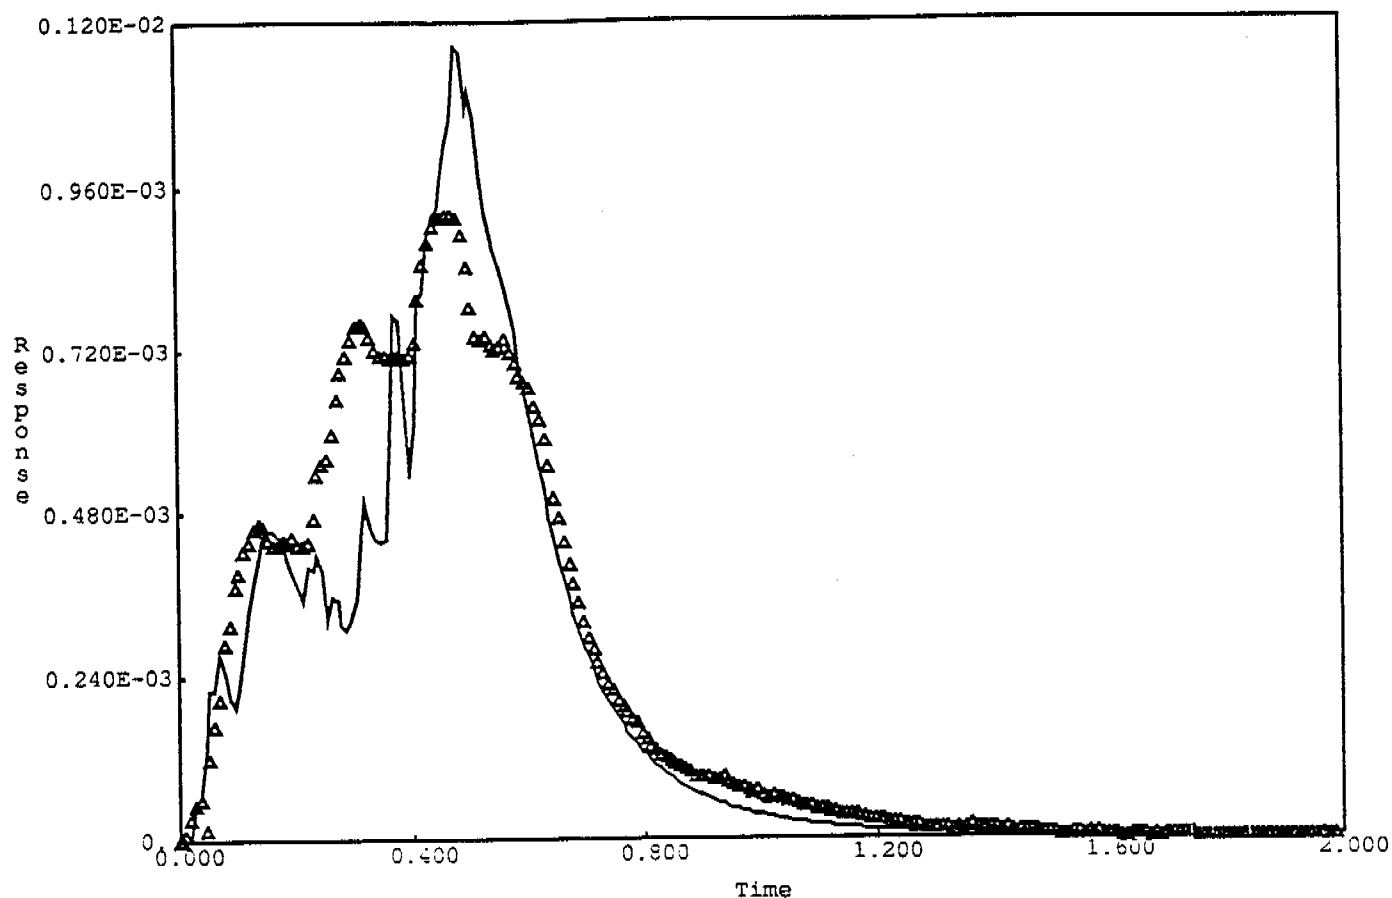

120895.fw

logged storm 8/12/95

calibrated with parameters contained in Table 2

Observed vs Predicted Time Series Plot for Response 1: Runoff #1

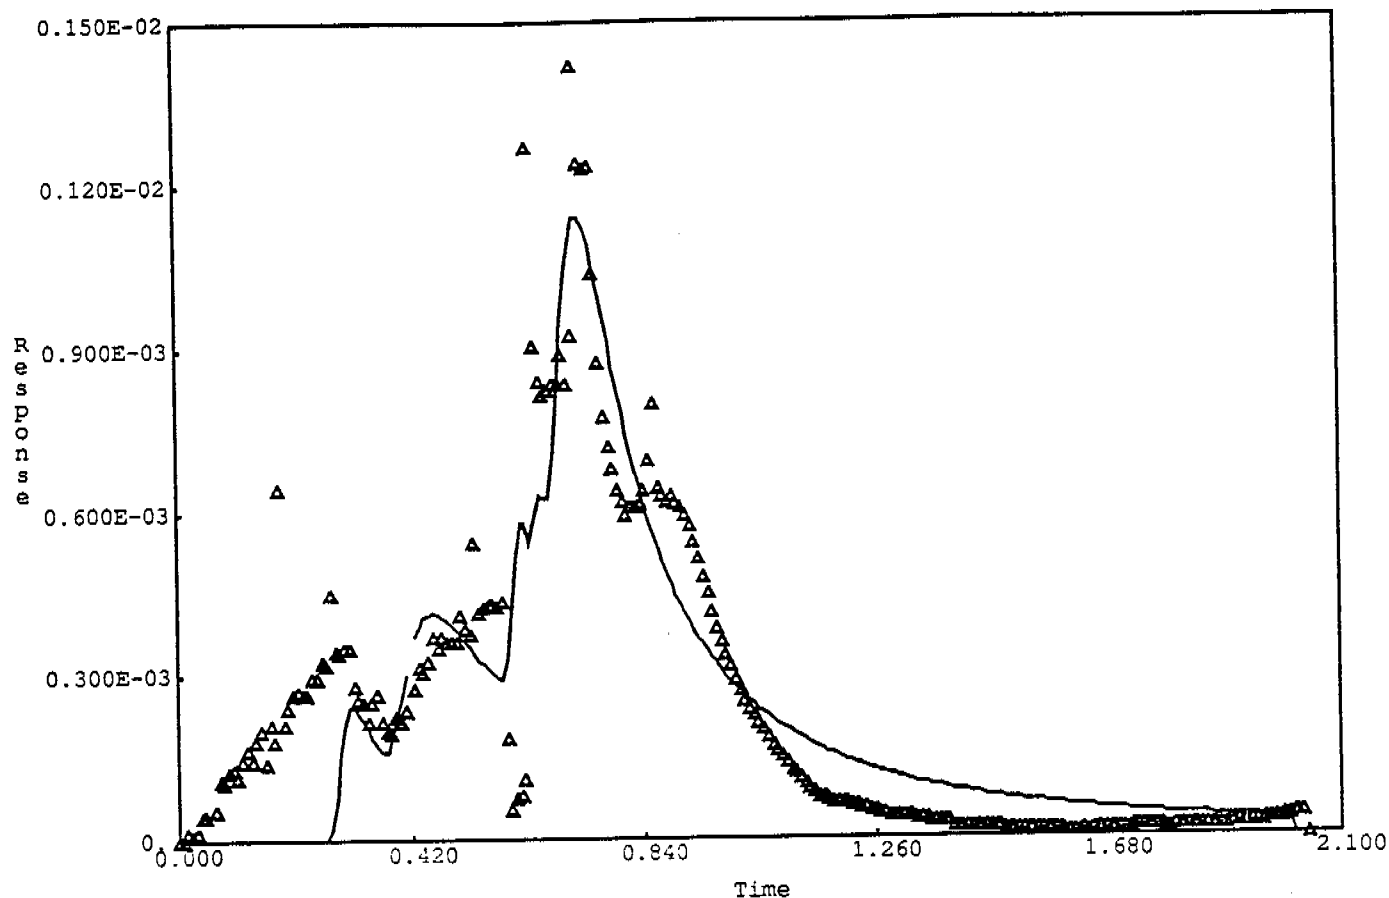

011296.5W

logged storm 12/1/96

calibrated with parameters contained in Table 2

Observed vs Predicted Time Series Plot for Response 1: Runoff #1

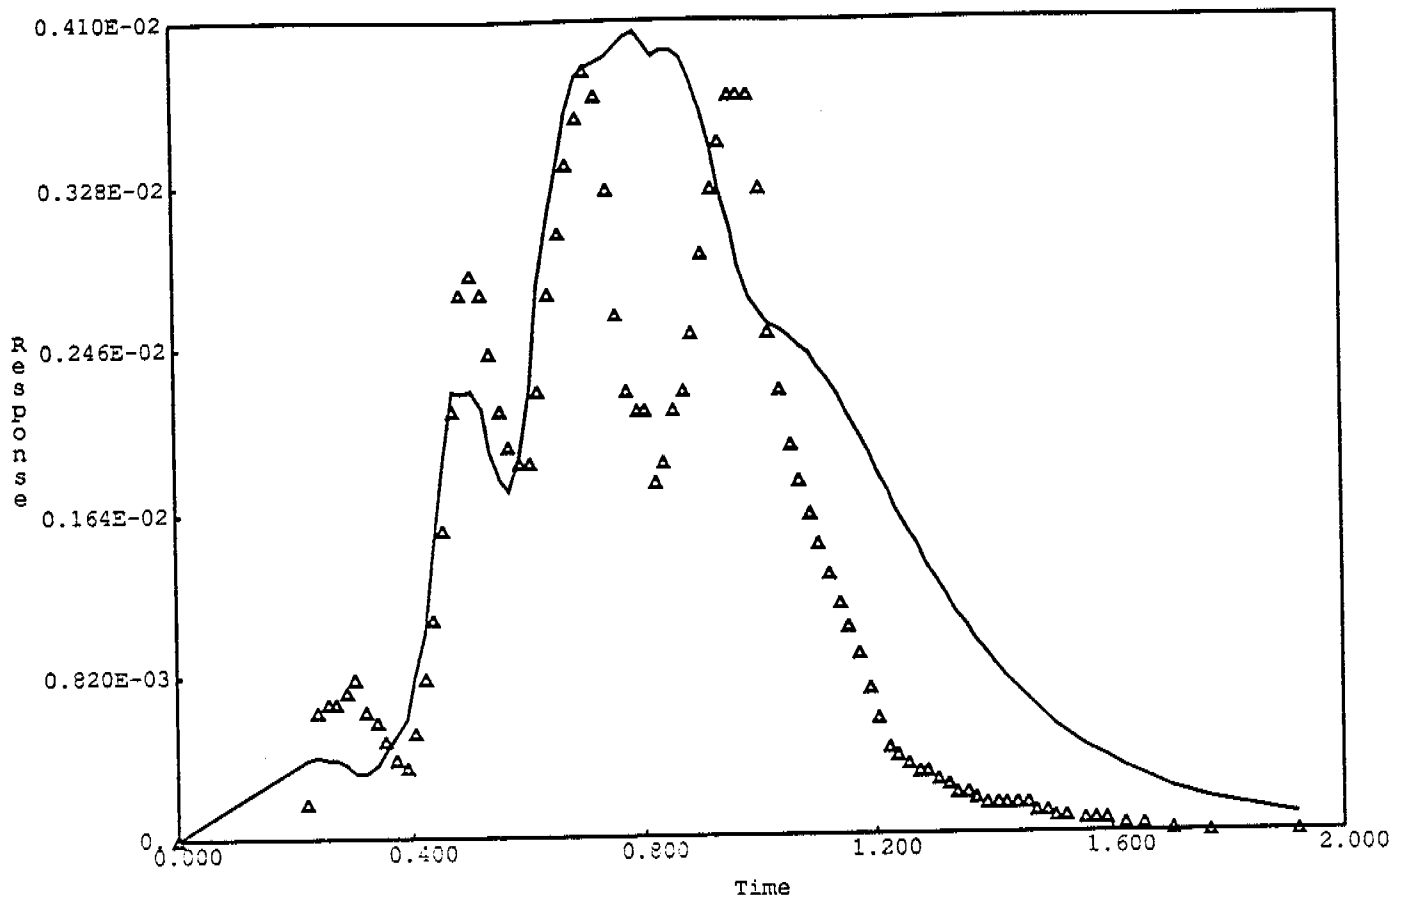

02079.6.fw

logged storm 7/2/96

calibrated with parameters contained in Table 2

Observed vs Predicted Time Series Plot for Response 1: Runoff #1

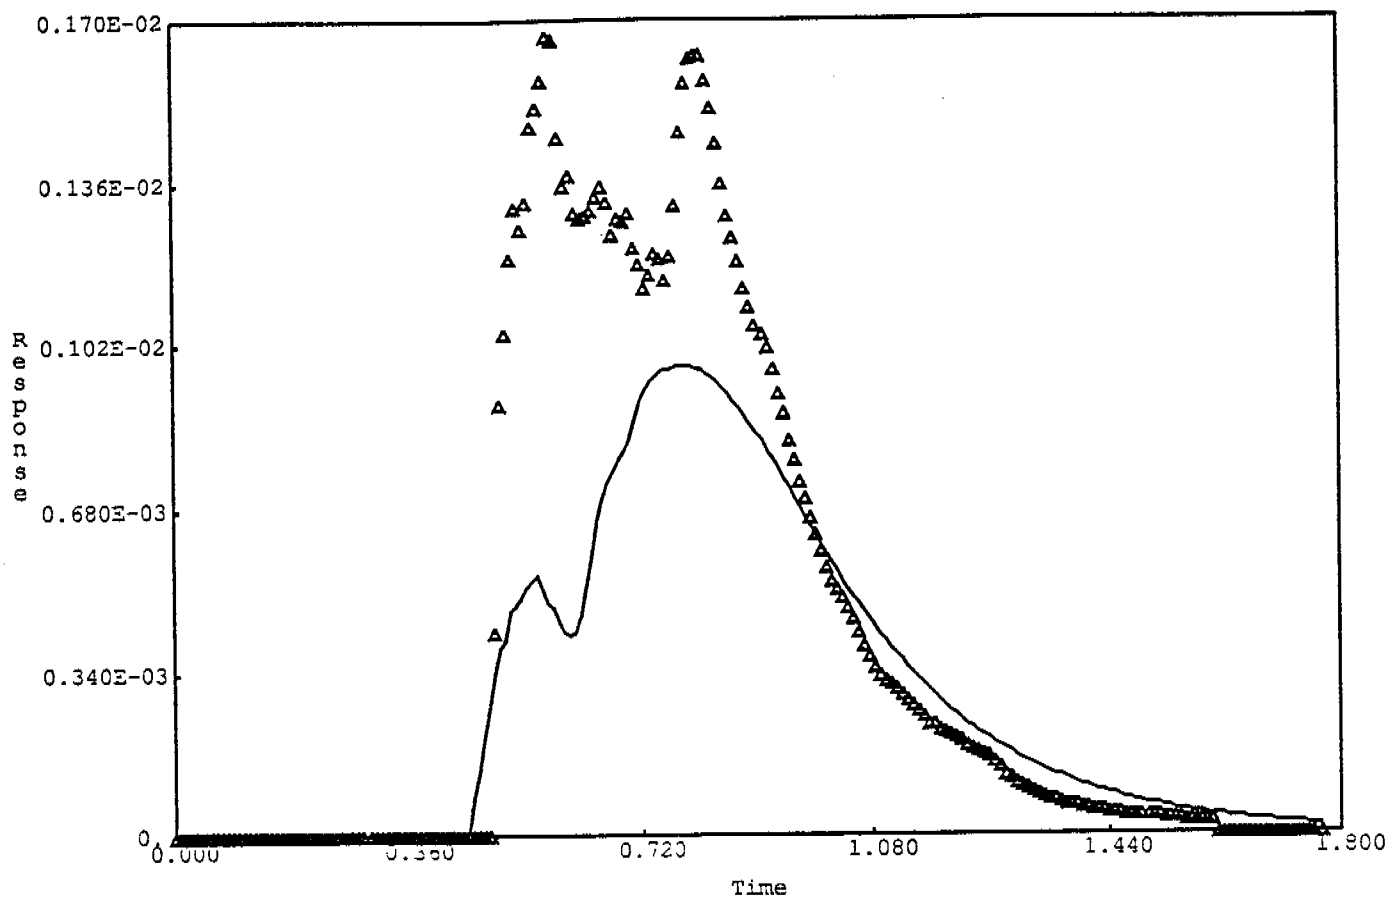

MONITORED STORM

10/1/96

Calibrated with parameters contained in Table 3

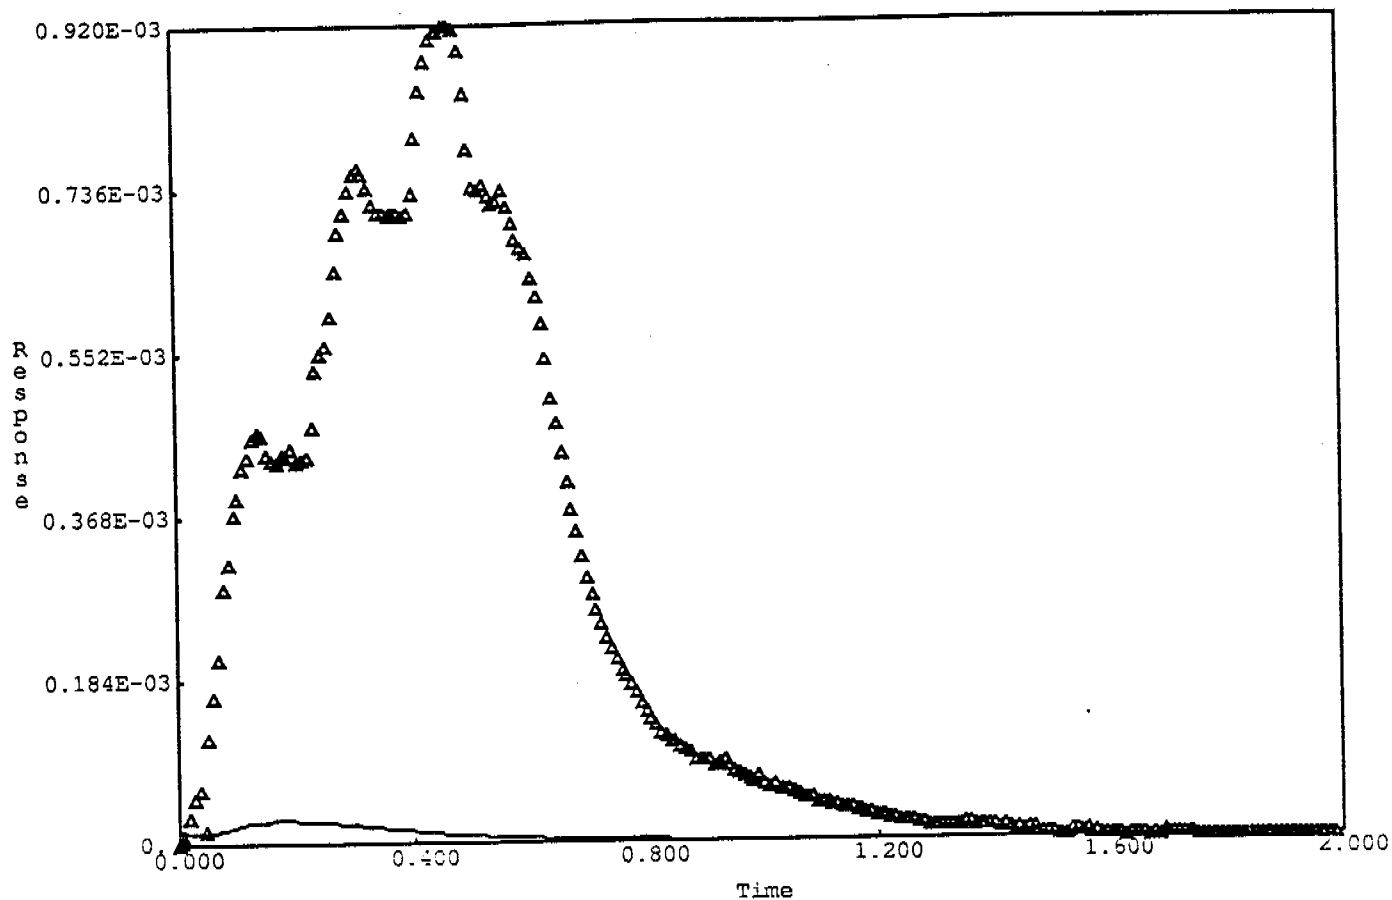

Observed vs Predicted Time Series Plot for Response 4: Runoff #4

8/12/96

calibrated with parameters contained in Table 3

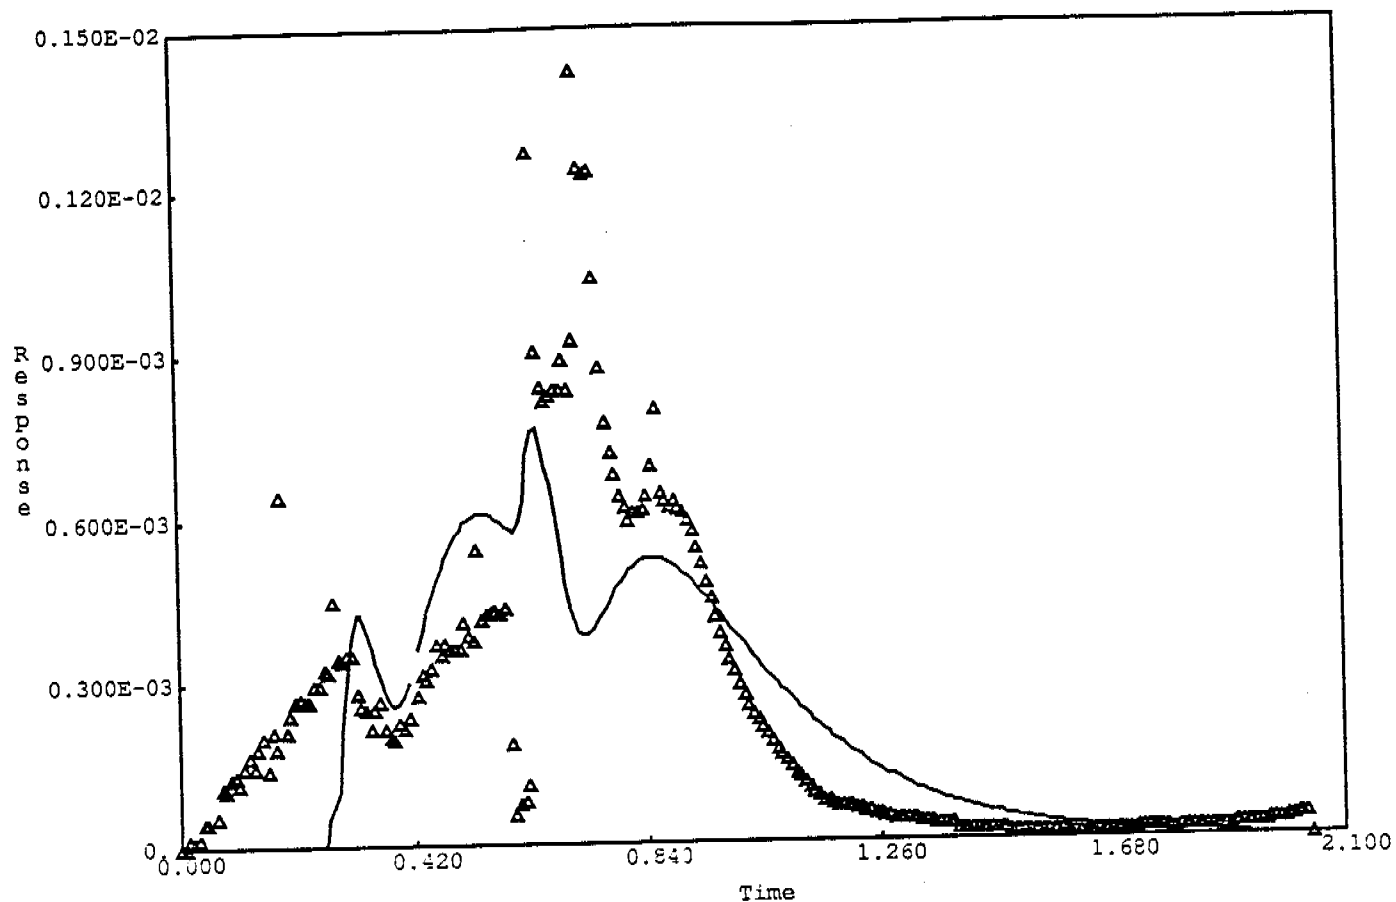

Observed vs Predicted Time Series Plot for Response 2: Runoff #2

12/1/96

calibrated with parameters contained in Table 3

Observed vs Predicted Time Series Plot for Response 3: Runoff #3

7/2/96

calibrated with parameters contained in Table 3
