

Australian Government

Do your students have what it takes to be a biosecurity champion?

Explore new Australian Curriculum-linked biosecurity teaching resources designed for primary school students in Year 2–5.

-  Learn about the importance of biosecurity.
-  Discover our shared responsibility to protect Australia.
-  Hands on learning through role play and problem solving.

The resources have been developed in collaboration with the [Primary Industries Education Foundation Australia](#).

We want you, as teachers, to test the teaching guide and lesson plans in your classroom and help us to improve the program, ensuring the resources are relevant.

We're also facilitating school visits to understand how resources can be tailored more closely to the needs of teachers and students, with merchandise on offer for participating schools.

Want to get involved?

Email the Biosecurity Education and Engagement team at biosecurity.education@aff.gov.au.
