

SEA CONTAINER MEASURES FOR KHAPRA BEETLE

Mandatory offshore treatment applies to FCL/FCX* containers where:

- high-risk plant products are packed into the sea container in a khapra beetle target risk country.
- other goods are packed into the sea container in a khapra beetle target risk country and will be unpacked in a rural khapra risk area of Australia.

We use information from the Bill of Lading to determine if the container was packed in one of these countries, as detailed in the flowchart below. Full details are outlined in the BICON case 'khapra beetle sea container'.

**ISO tanks, reefers, flat racks, LCL /FAK and containers that will be shipped as empty containers are excluded from the measures*

Start here

Has an FCL/FCX* container been packed with:

- high-risk plant products
or
- any other products and is destined to rural khapra risk area of Australia?

Yes

What is the port of loading country (as listed on the Bill of Lading)?

Khapra beetle
target risk country

What country is the
supplier/exporter/consignor/shipper
from (as listed on the Bill of Lading)?

Khapra beetle
target risk country

Non-khapra beetle
target risk country

Has a sealing declaration been provided
to prove the container was not packed
in a khapra beetle target-risk country?

No

Yes

**Khapra beetle sea container
measures apply**

**Khapra beetle sea container
measures don't apply**

- Container must be treated offshore within 21 days of export.
- Treatment certificate is required.
- Standard import conditions apply for the goods within container (refer to BICON).

- Treatment of container is **not** required.
- A sealing declaration evidencing the container was not packed in a khapra beetle target-risk country **is** required.
- Standard import conditions apply for the goods within container (refer to BICON).

No

**Khapra beetle sea
container measures don't
apply.**

- Treatment of container is **not** required.
- Standard import conditions apply (refer to BICON).

Non-khapra beetle
target risk country

What country is the
supplier/exporter/consignor/shipper
from (as listed on the Bill of Lading)?

Khapra beetle
target risk country

Non-khapra beetle
target risk country

**Khapra beetle sea container
measures don't apply**

- Treatment of container is **not** required.
- Standard import conditions apply for the goods within container (refer to BICON).
