Koala projects funded under the initial \$6 Million through the Environment Restoration Fund

Location	Recipient (delivery partner)	Project title and description	Funding
NSW	North Coast Local Land Services	<p>Protecting Koalas of SEQ and Northern NSW – North Coast</p> <p>The project will partner with landowners, local and NSW government agencies to protect and restore priority Koala habitat in several priority ARKS (Area of Regional Koala Significance) in the north coast region of NSW; Belmore River ARKS, Port Macquarie ARKS and the North Bellingen-Coffs Harbour ARKS. Conservation agreements will be used to protect priority Koala habitat from further loss while on ground actions such as revegetation, weed control, fencing, and fire planning, described in habitat management plans, will restore and enhance Koala habitat. This project complements a concurrent funded Koala project in south-east Queensland.</p>	\$2,000,000
QLD	Healthy Land and Water Ltd	<p>Protecting Koalas of SEQ and Northern NSW</p> <p>This will partner with public and private land managers, State and local governments, community organisations and Traditional Owners, to protect and restore priority Koala habitat in Flinders Peak in south-east Queensland through on ground actions such as revegetation, weed control, managed grazing and fire management initiatives. The project will encourage community reporting of Koala sightings and participation in habitat protection and restoration activities. This project complements a concurrent funded Koala project in northern NSW.</p>	\$1,000,000
QLD	Australia Zoo Wildlife Warriors Worldwide Ltd	<p>Protecting Koalas of south-east QLD and northern NSW</p> <p>This project will undertake research projects to improve the health of Koalas, and infrastructure and equipment upgrades for the wildlife hospital to improve efficiencies and recovery rates for sick and injured wildlife.</p>	\$1,000,000
QLD	The Trustee for Currumbin Wildlife Hospital Foundation	<p>Koala Treatment, Rehabilitation and Research</p> <p>This project will deliver improved health outcomes for the Koala. Project activities will focus on research and understanding of the key Koala diseases/genetics, improving the standard of diagnostics on Koalas admitted, and improved facilities and veterinary care.</p>	\$1,000,000

QLD	Royal Society for Prevention of Cruelty to Animals (Queensland) Ltd	<p>Koala Rescue and Rehabilitation Program</p> <p>This project will help address capacity issues as a result of natural disasters, ensuring preparedness for delivery of a Koala rescue and rehabilitation program during these critical times to save this species from extinction.</p>	\$1,000,000
