

ABARES
*Farms of
Tomorrow*
A family farm perspective

Amy Munro

Spey Clinic in India 2019

Exchange in Norway 2020

2015 AWiA Conference
(Alice Springs)

Farms of tomorrow?

Barriers	Solutions?
Access to technology	Mobile and internet infrastructure
Failed succession planning	Awareness and access to services
\$\$\$	-Incentives (<i>First-farm buyers Grant?</i>) -Low interest rates
Awareness/ Access to Ag careers	Education and mentoring
Inadequate representation	A place at the decision-making table

The heart of a farmer

We are the family farmers.

We farm with love and passion so that you may enjoy the fruits of our labour in the meals on your table and the clothes on your back.

We are the family farmers, who teach our children to care for the land.

We rise before the dawn and rest after the sun sets to provide you with safe, quality food and fibre.

For we dedicate our lives to this land, our produce is a gift from us to you.

We support you every day, will you support our future?
