**USER GUIDE  
TO THE  
PORTFOLIO ADDITIONAL  
ESTIMATE STATEMENTS**

# USER GUIDE

The purpose of the 2018–19 Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements (PBS), is to inform Senators and Members of Parliament of the proposed allocation of resources to Government outcomes by entities within a portfolio. The focus of PAES differs from the PBS in one important aspect. While PAES includes an Entity Resource Statement to inform the Parliament of revised estimates of total resources available to an entity, its focus is to explain changes in resourcing by outcome(s) since the Budget. As such, PAES provides information on new measures and their impact on the financial and/or non-financial planned performance of programs supporting those outcomes.

PAES facilitates understanding of proposed appropriations in Appropriation Bills (No. 3) and (No. 4) 2018–19. For this reason PAES is declared by the Appropriation Bills to be a ‘relevant document’ to the interpretation of the Bills according to section 15AB of the *Acts Interpretation Act 1901*.

Whereas the 2018–19 Mid-Year Economic and Fiscal Outlook (MYEFO) is a mid-year budget report that provides updated information to allow the assessment of the Government’s fiscal performance against its fiscal strategy, PAES update the most recent budget appropriations for entities within a portfolio.

# PORTFOLIO OVERVIEW

# PORTFOLIO OVERVIEW

The Agriculture and Water Resources portfolio consists of the Department of Agriculture and Water Resources (the department) and nine portfolio bodies (Figure 1 refers).

The roles and responsibilities of the department and the portfolio bodies have not changed since the 2018–19 Portfolio Budget Statements (PBS). An outline of the Department’s Portfolio Overview can be found in the 2018–19 PBS.

The department is receiving additional appropriations through Appropriation Bills (No. 3) and (No. 4) 2018–19. The Murray-Darling Basin Authority will receive additional resourcing that will pass through the department and the Australian Fisheries Management Authority will receive additional appropriation through Appropriation Bill (No. 3) 2018–19.

(b) Excludes \$196.521 million subject to administrative quarantine by the Department of Finance or withheld under section 51 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act).

(c) Estimated external revenue under section 74 of the PGPA Act.

(d) Departmental capital budgets are not separately identified in the Appropriation Bills and form part of ordinary annual services items. Please refer to Table 3.6 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.

(e) *Appropriation Act (No. 2) 2018–19* and Appropriation Bill (No. 4) 2018–19.

(f) Excludes 'Special Public Money' held in accounts like Other Trust Monies accounts (OTM), Services for Other Government and Non-agency Bodies accounts (SOG) or Services for Other Entities and Trust Moneys accounts (SOETM). For further information on special accounts see Table 3.1.

(g) Amounts credited to the special account(s) from the department's annual appropriations or crediting provisions in special account acts.

(h) A direction under section 51 of the PGPA Act, withholds access to appropriated funds resulting in a 'loss of control' for the entity over relevant amounts, for example Government decisions, movements of funds, reallocations or reclassifications.

(i) Amounts credited to the Water for the Environment Special Account were previously credited through the special appropriation. However, this treatment has changed. These amounts are now credited through the provisions in the special account acts, therefore removing the requirement of the special appropriation.

Prepared on a resourcing (i.e. appropriations available) basis.

Please note: All figures shown above are GST exclusive – these may not match figures in the cash flow statement.

**Table 1.3: Additional Estimates and other variations to outcome since 2018–19 Budget (continued)**

- (a) The measure *Improving Confidence in the Strawberry Supply Chain* will be funded through the department.
- (b) Under program 1.2 Sustainable Management – Natural Resources, the sub-program Pest Animal and Weeds Management was formerly known as Stronger Farmers, Stronger Economy – strengthening research, skills and management of natural resources – pest animal and weeds management. This terminating measure has administered funding of \$8.493 million under Outcome 1 and departmental funding of \$1.247 million in 2022–23 under Outcome 2.
- (c) This measure is ongoing.
- (d) \$175.000 million and \$197.324 million for this program has been moved beyond the forward estimates to 2022–23 and 2023–24.
- (e) \$175.000 million in 2022–23 and \$60.000 million in 2023–24 for this program has been reclassified from Administered – Act (No. 2) Non-Operating (Assets and Liabilities).
- (f) The measure *Assistance for Farmers and Farm Communities in Drought – Great Artesian Basin Sustainability Initiative – extension* also has funding provided through the National Partnership on the Great Artesian Basin Sustainability Initiative, which is administered by the Department of the Treasury (see below table National Partnership payments). This measure has funding of \$0.615 million in 2022–23, \$0.445 million in 2023–24 and \$0.105 million in 2024–25.
- (g) The financial implications of the *Future Drought Fund – establishment* will be finalised following the settlement of the investment mandate. This will require approval of the Treasurer, the Minister of Finance and the Public Service, following consultation with the Future Fund Board of Guardians.
- (h) Amounts credited to the Water for the Environment Special Account were previously credited through the special appropriation. However, this treatment has changed. These amounts are now credited through the provisions in the special account acts, therefore removing the requirement of the special appropriation.
- (i) Unspent equity injections from the current and prior years being moved after their repeal date will need to be reappropriated in the year required. Otherwise, if they are moving before their repeal date, they will not need to be reappropriated. This is because funding is still available and does not need to be reappropriated nor re-recognised in the estimates.
- (j) Access to prior years appropriation for Non-Operating Administered – Act (No. 2) Assets and Liabilities was approved for 'Farm Business Concessional Loans' of \$7.000 million from 2017–18 and 'Sustainable Rural Water Use an infrastructure Program' of \$193.727 million from 2017–18.
- (k) Unspent equity injections – Access to prior years appropriation for Non-Operating Equity Injections – Act (No. 2) was approved for 'Biosecurity Integrated Information System' of \$4.377 million from 2017–18 and 'Stronger Farmers, Stronger Economy – Improvements to Access Premium Markets – Improving the Biosecurity System – Surveillance' of \$2.083 million from 2017–18.
- (l) Special Account \$103.141 million and \$29.900 million for this program has been moved beyond the forward estimates to 2023–24 and 2023–24.
- (m) The measure *Assistance for Farmers in Drought – Great Artesian Basin Sustainability Initiative – extension* also has funding provided through the Department of Agriculture and Water Resources (see Outcome 3 above). This measure has funding of \$8.000 million in 2022–23 and \$4.000 million in 2023–24.
- (n) \$40.000 million and \$29.900 million for this program has been moved beyond the forward estimates to 2023–24 and 2023–24.
- (o) \$60.000 million and \$39.299 million for this program has been moved beyond the forward estimates to 2022–23 and 2023–24.

## **3.2 BUDGETED FINANCIAL STATEMENTS**

### **3.2.1 Analysis of budgeted financial statements**

The financial statements incorporate all budget estimate changes since the 2018–19 PBS. An analysis of the primary causes of the movements in the budgeted departmental financial statements and administered schedules is provided in the relevant sections. The 2018–19 PBS is used as the comparative figures in the analysis.

#### **Budgeted comprehensive departmental income statements**

Revenue from government in 2018–19 has increased by \$9.1 million since the 2018–19 PBS due to new measures announced in the 2018–19 Mid-Year Economic and Fiscal Outlook (MYEFO) and other variations listed in tables 1.2 and 1.3.

Own source revenue has increased \$18.5 million, largely due to higher than anticipated revenue from the department's cost recovered activities.

Expenses have increased by \$27.7 million, reflecting 2018–19 MYEFO measures and other variations listed in tables 1.2 and 1.3, higher level of activity in the department's cost recovered activities and an increase in the estimate for depreciation expenses.

Consistent with the forecast in the 2018–19 PBS, the department continues to budget for a balanced budget position in 2018–19 before unfunded depreciation.

The departmental balance sheet has incorporated the final 2017–18 position as published in the 2017–18 Annual Report.

#### **Schedule of budgeted income and expenses administered on behalf of the Government**

It is estimated that the department will receive non-appropriation revenue on behalf of government of \$996.6 million in 2018–19, an increase of \$172.5 million since the 2018–19 PBS. The increase is primarily due to a non-cash adjustment to recognise gains for the recognition of water assets under the Sustainable Rural Water Use Infrastructure Program (SRWUIP).

Administered expenses in the 2018–19 Portfolio Additional Estimates Statements (PAES) are estimated to be \$2,634.6 million, an increase of \$310.3 million since the 2018–19 PBS. The increase reflects the non-cash adjustment to transfer water assets under SRWUIP to the Department of the Environment and Energy, measures announced in the 2018–19 MYEFO and other variations listed in tables 1.2 and 1.3.

**Schedule of budgeted assets and liabilities administered on behalf of the Government**

Administered net assets as at 30 June 2019 are anticipated to increase by \$396.7 million compared to the 2018–19 estimate in the 2018–19 PBS. This change is primarily due to an increase in trade and other receivables of \$250.0 million. This increase relates to the additional loan funding available through the Regional Investment Corporation that was announced in the 2018–19 MYEFO under the Assistance for Farmers and Farm Communities in Drought measure. There has also been an increase in cash and cash equivalents of \$83.0 million relating to the Water for the Environment Special Account and higher investments accounted for using the equity method of \$49.0 million.

The schedule of budgeted assets and liabilities administered on behalf of the Government has incorporated the final 2017–18 position as published in the 2017–18 Annual Report.

### 3.2 BUDGETED FINANCIAL STATEMENTS

#### 3.2.1 Analysis of budgeted financial statements

Major changes since the 2018–19 PBS include the reporting of actual results for 2017–18 and a movement of funds increasing AFMA's 2018–19 Departmental Capital Budget by \$172,000.

Other changes from the 2018–19 PBS include the reclassification of AFMA's special account balances from receivables to cash and cash equivalents for consistency with annual reporting requirements and recognising Departmental Services for Other Entities and Trust Monies (SOETM) on the balance sheet as cash and cash equivalents.

## PORTFOLIO GLOSSARY

Term	Meaning
Accumulated depreciation	The aggregate depreciation recorded for a particular depreciating asset.
Actual Available Appropriation	The Actual Available Appropriation indicates the total appropriations available to the entity for 2017–18 as at the 2018–19 Portfolio Additional Estimates Statements (PAES). It includes all appropriations made available to the entity in the year (+/- section 75 transfers, formal reductions, Advance to the Minister for Finance, movements of funds and other quarantines). It is the same as the comparator figure included in the Appropriation Bills, and as such provides a comparison with the appropriation proposed for the budget year.
Additional Estimates	Appropriation Bills that seek appropriation authority from Parliament for the additional expenditure of money from the Consolidated Revenue Fund (CRF), in order to meet requirements that have arisen since the last Budget. Further annual appropriation Bills can be introduced during the year if required. These Bills are called the Additional Estimates (AEs) Appropriation Bills (after Mid-Year Economic and Fiscal Outlook (MYEFO)) or Supplementary Additional Estimates Appropriation Bills (at the same time as bills for the next budget).
Administered Items	Expenses, revenues, assets or liabilities managed by entities on behalf of the Australian Government. Entities do not control administered items. Administered items include grants, subsidies and benefits. In many cases, administered items fund the delivery of third party outputs.
Annual Appropriation	A law of the Commonwealth Parliament that provides authority to draw money from the CRF. An appropriation authorises expenditure for a specified purpose. The Commonwealth cannot spend money without an appropriation authorising that expenditure (and, in some cases, legislation other than an appropriation may be required to authorise the relevant expenditure). Two Appropriation Bills are introduced into Parliament in May and comprise the Budget for the financial year beginning 1 July. Further Bills are introduced later in the financial year, usually in February, as part of AEs.

<b>Term</b>	<b>Meaning</b>
Appropriation	A law of the Parliament that provides authority for entities to spend money from the Consolidated Revenue Fund for a particular purpose. Entities may not spend money without an appropriation authorising that expenditure and, where necessary, other legislation authorising the specified purpose.
Budget Paper 1 (BP1)	Budget Strategy and Outlook. Provides information on the economic and fiscal outlook for the Australian Government, including information on the government's fiscal strategy.
Budget Paper 2 (BP2)	Budget Measures. Provides a description of each Budget measure (revenue, expense and capital) by portfolio.
Budget Paper 3 (BP3)	Australia's Federal Relations. Provides information and analysis on Federal funding provided to the States and Territories and local government.
Budget Paper 4 (BP4)	Agency Resourcing. Contains information on resourcing for Australian Government entities (including special appropriations, special accounts and a summary of agency resourcing).
Capital Expenditure	Expenditure by an entity on capital projects, for example purchasing a building.
CRF	The Consolidated Revenue Fund (CRF) is established by section 81 of the Constitution and consists of all revenues and moneys raised or received by the executive government of the Commonwealth. The CRF is self-executing in nature, which means that all money forms part of the CRF automatically upon receipt by the Commonwealth.
DCB	Departmental (or Administered) Capital Budget (DCB/ACB) are provided to non-corporate Entities (as an equity injection) that receive government funding to meet the costs associated with the replacement of minor assets (assets valued at \$10 million or less) or maintenance costs that are eligible to be capitalised. The funding for depreciation, amortisation and make-good expenses was replaced with a DCB in the 2010–11 Budget.

Term	Meaning
Departmental item	Resources (assets, liabilities, revenues and expenses) that the entity's Accountable Authority controls directly. This includes outsourced activities funded and controlled by the entity. Examples of departmental items include entity running costs, accrued employee entitlements and net appropriations. A departmental item is a component of a departmental program.
Depreciation	Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time.
Equity or net assets	Residual interest in the assets of an entity after deduction of its liabilities.
Estimated Actual Expenses	Details of the current year's estimated final figures as included in the Budget documentation. As the Budget is released in May each year, but the financial year does not end until 30 June, the current year numbers that are used for comparison with Budget amounts can only be estimates.
Expense	Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.
Expenses not requiring appropriation in the Budget year	Expenses not involving a cash flow impact are not included within the calculation of an appropriation. An example of such an event is goods or services received free of charge that are then expensed: e.g. Australian National Audit Office (ANAO) audit services – the ANAO does not charge for audit services however the expense must be recognised. Similarly, bad debts are recognised as an expense but are not recognised for the purpose of calculating appropriation amounts to be sought from Parliament.
Fair value	Valuation methodology: the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction. The fair value can be affected by the conditions of the sale, market conditions and the intentions of the asset holder.

<b>Term</b>	<b>Meaning</b>
Forward Estimates Period	The three years following the Budget year. For example, if 2018–19 is the Budget year, 2019–20 is forward year 1, 2020–21 is forward year 2 and 2021–22 is forward year 3. This period does not include the current financial year or the Budget year.
Levies	Money collected and administered by the department on behalf of industry for use in research and development, marketing and promotion, plant and animal health programs and residue testing activities that benefit industry.
Measure	A new policy or savings decision of the government with financial impacts on the government's underlying cash balance; fiscal balance; operating balance; headline cash balance; net debt or net worth. Such proposals are normally made in the context of the annual Budget, and are typically published in BP2, in the Mid-Year Economic and Fiscal Outlook (MYEFO) and in the Pre-election Economic and Fiscal Outlook (PEFO).
MYEFO	The Mid-Year Economic and Fiscal Outlook provides an update of the government's Budget estimates by examining expenses and revenues in the year to date, as well as provisions for new decisions that have been taken since the Budget. The report provides updated information to allow the assessment of the government's fiscal performance against the fiscal strategy set out in its current fiscal strategy statement.
NCCE	Non-Corporate Commonwealth Entity under the Public Governance, Performance, and Accountability Act 2013.
OPA	The Commonwealth's central bank account. The Official Public Account (OPA) is one of a group of linked bank accounts, referred to as the Official Public Account Group of Accounts. OPAs are maintained with the Reserve Bank of Australia, as required by subsection 53(3) of the PGPA Act.
Operating Result	Equals revenue less expense.
Outcomes	The Government's objectives in each portfolio area. Outcomes are desired results, impacts or consequences for the Australian community as influenced by the actions of the Australian Government. Actual outcomes are assessments of the end-results or impacts actually achieved.

Term	Meaning
PAES	Portfolio Additional Estimates Statements. These are Budget Statements prepared by portfolios to explain appropriations at Additional Estimates.
PBS	Portfolio Budget Statements. These are Budget Statements prepared by portfolios to explain appropriations at the time of the Budget.
PGPA Act	Public Governance, Performance and Accountability Act 2013.
Programs	The name given to the variety of activities a government agency may undertake to achieve stated outcomes.
Revenue	Total value of resources earned or received to cover the production of goods and services.
Special Account	A type of special appropriation, limited by amount, criteria or time, which may be established under sections 78 and 80 of the PGPA Act.
Special Appropriations	Authority within an Act (other than an annual Appropriation Act) to spend money from the Consolidated Revenue Fund for particular purposes.
Specific Purpose Payments	Commonwealth payments to states and territories made under the <i>Federal Financial Relations Act 2009</i> .
Supplementary Additional Estimates	Where amounts appropriated in the Budget and at Additional Estimates are insufficient, the Parliament may appropriate more funds to portfolios at Supplementary Additional Estimates. This is done through Appropriation Bills (No. 5) and (No. 6). These Bills are usually introduced into the Parliament with the Budget in May.
