

The list of pathogens of aquatic animal biosecurity concern was created to reflect the pathogens which pose a significant threat to aquatic animal health and are significant in the international trade of aquatic animals and animal products. This list was based on *Australia's National List of Reportable Diseases of Aquatic Animals as well as appropriate risk reviews of aquatic commodities* and may be used for vaccines for aquatic species and other commodities containing material derived from aquatic species as deemed appropriate by the Department of Agriculture, Fisheries and Forestry.

PATHOGENS OF AQUATIC ANIMAL BIOSECURITY CONCERN				
Animal species	Pathogen (disease agent)	Disease		
Salmon	Aeromonas salmonicida subsp. Salmonicida - including atypical strains	Furunculosis, marine aeromonas disease		
	Aliivibrio salmonicida (Vibrio salmonicida)	Cold water vibriosis (haemorrhagic septicaemia)		
	Carp sprivivirus	Spring viraemia of carp		
	Infectious pancreatic necrosis virus (IPNV)	Infectious Pancreatic Necrosis		
	Piscine novirhabdovirus (Viral haemorrhagic septicaemia virus, VHSV)	Viral haemorrhagic septicaemia		
	Piscirickettsia salmonis	Piscirickettsiosis		
	Renibacterium salmoninarum	Bacterial kidney disease		
	Salmonid alphavirus (SAV)	Pancreas disease, Sleeping disease		
	Salmonid herpesvirus 2 (Oncorhynchus masou virus)	Oncorhynchus masou virus disease		
	Salmon isavirus Including HPR-deleted or HPRO infectious salmon anaemia virus	Infectious Salmon Anaemia		

	Salmonid novirhabdovirus (Infectious haematopoietic necrosis virus, IHNV)	Infectious Haematopoietic Necrosis
	Yersinia ruckeri – Hagerman strain	Enteric redmouth disease
Non-salmonid finfish	Aeromonas salmonicida subsp. salmonicida - including atypical strains	Furunculosis, various diseases including ulcer disease of goldfish and founder
	Aliivibrio salmonicida (Vibrio salmonicida)	Cold water vibriosis (haemorrhagic septicaemia)
	Aquabirnaviruses (Yellowtail ascites virus)	Various disease symptoms including ascites, deformity
	Carp sprivivirus	Spring viraemia of carp
	Cyprinid herpesvirus 3	Carp interstitial and gill nephritis Koi herpesvirus disease
	European catfish virus (ECV)/European sheatfish virus)	Epizootic haematopoietic necrosis
	Ictalurid herpesvirus 1 (Channel catfish virus)	Channel catfish virus disease
	Infectious spleen and kidney necrosis virus (ISKNV)	Infectious spleen and kidney necrosis disease
	ISKNV-like viruses (Megalocytiviruses)	Various diseases
	Piscine novirhabdovirus (Viral haemorrhagic septicaemia virus, VHSV)	Viral haemorrhagic septicaemia
	Piscine retrovirus (including Salmonid leukaemia virus and plasmacytoid leukaemia)	Various diseases
	Red sea bream iridovirus (RSIV)	Red sea bream iridovirus disease

	Salmon isavirus Including HPR-deleted or HPRO infectious salmon anaemia virus	Infectious salmon anaemia
	Salmonid novirhabdovirus (Infectious haematopoietic necrosis virus, IHNV)	Infectious Haematopoietic Necrosis
	Singapore grouper iridovirus	Grouper iridovirus disease/sleepy grouper disease
	Yersinia ruckeri – Hagerman strain	Enteric redmouth disease
Molluscs	Iridoviruses	Various diseases
	Xenohaliotis californiensis	Withering syndrome of abalone
Crustaceans	Aphanomyces astaci	Crayfish plague
	Candidatus Hepatobacter penaei	Necrotising hepatopancreatitis
	Decapod penstyldensovirus 1 (also known as Infectious hypodermal and haematopoietic necrosis virus (IHHNV))	Infectious hypodermal and haematopoietic necrosis
	Enterocytozoon hepatopenaei	Hepatopancreatic microsporidiosis
	Gill-associated virus	Gill-associated virus disease
	Infectious myonecrosis virus (IMNV)	Infectious myonecrosis
	Laem-Singh virus (LSNV)	Monodon slow growth syndrome
	Taura syndrome virus (TSV)	Taura syndrome

	Vibrio parahaemolyticus (VpAHPND) with PirA and PirB toxins	Acute hepatopancreatic necrosis disease (AHPND)
	White spot syndrome virus (WSSV)	White spot disease
	Yellow head virus (YHV) genotype 1	Yellow head disease
Amphibians	Batrachochytrium dendrobatidis	Chytridiomycosis
	Bactrachochytrium salamandrivorans	Chytridiomycosis
	Ranaviruses	Various diseases
