

Permitted Seeds List

This list is referenced in section 26 (10), and section 33(1) of the *Biosecurity (Conditionally Non-prohibited Goods) Determination 2021*, section 17 (10) and section 24(1) of the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods – Christmas Island) Determination 2016*, section 18 (10) and section 25(1) of the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods – Cocos (Keeling) Islands) Determination 2016*, and section 18 (10) and section 24(1) of the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods – Norfolk Island) Determination 2016*.

All subordinate taxa (e.g. varieties, subspecies, forms and subforms) of listed species are also permitted. Hybrids are permitted if all parents used for the hybridisation are listed as permitted.

All accepted synonyms of listed species are also permitted, where approved by the department's Biosecurity Plant Division.

All genera and species of *Orchidaceae* are permitted. However, only the most commonly imported Orchid genera are listed.

The list applies to all end uses, unless otherwise specified with an asterisk*. For species marked with an asterisk the species is permitted for all end uses **excluding** seed for sowing/planting.

Note: This document contains Chapter 1 of 7 of the Permitted Seeds List. Chapters 2-7 (Genera beginning with 'B' to 'Z') can be found on the department's website.

Chapter 1 of 7 (Genera beginning with 'A')

<i>Aa</i> spp.
