

THREATENED SPECIES BAKE OFF 2021

Bake a threatened species-themed dessert to raise awareness of Australia's threatened species and Threatened Species Day!

This year's theme is
'Ecosystem Engineers'.

Ecosystem engineers play an important role in Australia's unique environments and include any species that modifies, improves, or creates habitat.

We're encouraging you to do some 'digging' of your own and celebrate our diverse range of remarkable threatened species, you might be surprised

at what you discover, and your research may inspire your #TSBakeOff entry.

To enter, simply upload a photo or video of your baked creation to social media using the hashtag #TSBakeOff or email us at tsbakeoff@environment.gov.au.

Get your entries in by
Wednesday 8 September!
