

## Waste Plastic Exports List

This list is referenced in subparagraph 6(2)(b)(i) of the *Recycling and Waste Reduction (Export—Waste Plastic) Rules 2021* (Plastic Rules) and published in accordance with the definition of the Waste Plastic Exports List in section 4 of the Plastic Rules. Terms used in this document have the same meaning as the Plastic Rules.

Column 1	Column 2	Column 3
Item	Kind of regulated waste plastic <sup>1</sup>	Circumstances in which regulated waste plastic listed in column 2 is exported
1	<ul style="list-style-type: none"> <li>a. Regulated waste plastic that is sorted into a single polymer or resin prior to export, and</li> <li>b. processed engineered fuel.<sup>2</sup></li> </ul>	<p>All of the following apply:</p> <ul style="list-style-type: none"> <li>a. The exporter entered a contract (the <b>transport contract</b>) with a party (the <b>transporting party</b>) prior to 25 June 2021, for the transporting party to transport by air or by sea, the consignment of regulated waste plastic from Australia prior to 1 July 2021.</li> <li>b. The transporting party is unable to transport the consignment of regulated waste plastic prior to 1 July 2021 for a reason that is beyond the control of the exporter.</li> <li>c. The exporter has provided the Minister with: <ul style="list-style-type: none"> <li>i. the transport contract, and</li> <li>ii. correspondence from the transporting party providing that they are unable to transport the consignment of regulated waste plastic prior to 1 July 2021.</li> </ul> </li> <li>d. The consignment of regulated waste plastic is exported prior to 30 July 2021.</li> </ul>

<sup>1</sup> Regulated waste plastic is defined in section 4 of the Plastic Rules to mean waste plastic that is prescribed under section 5 of the Plastic Rules.

<sup>2</sup> Processed engineered fuel is defined in section 4 and paragraph 5(3)(c) of the Plastic Rules.
