ABARE project 1059

---

# Foreword

*Australian Commodity Statistics* is an invaluable reference book for anyone associated with Australia's agricultural and resources industries. It is a comprehensive publication, containing overview and macroeconomic information as well as key statistics on the supply of and demand for each commodity covered. Current data are presented alongside historical data, with some historical series extending for over forty years.

In *Australian Commodity Statistics*, ABARE aims for continuity from year to year. This makes it possible for users to monitor industry developments over time. To ensure that the most relevant package of statistics is provided, the tables are scrutinised each year with some changes made and new tables added.

*Australian Commodity Statistics* can be used in conjunction with ABARE's *Australian Commodities*, in which the most important statistics, including forecasts, are updated throughout the year. Both of these publications provide background material for ABARE's national OUTLOOK conference held in Canberra in March each year and at which medium term outlook assessments will be presented for the major agricultural and natural resource based industries.

Other ABARE publications that contain mainly statistical information on commodities and as such complement the data presented in *Australian Commodity Statistics* are *Australian Crop Report* (quarterly), *Australian Mineral Statistics* (quarterly), *Australian Forest and Wood Products Statistics* (biannual) and *Australian Fisheries Statistics* (annual).

BRIAN S. FISHER  
Executive Director

December 2004

# Definitions and explanations

## Abbreviations and symbols

lb	pound	454 grams
kg	kilogram	2.20462 pounds
t	tonne	1000 kilograms
kt	kilotonne	1000 tonnes
Mt	megatonne	1 000 000 tonnes
L	litre	1.761 pints
kL	kilolitre	1000 litres
ML	megalitre	1 000 000 litres
GL	gigalitre	1 000 000 000 litres
ha	hectare	2.471 acres
m³	cubic metre	1.307 cubic yards
c	cent (Australian)	
A\$	dollar (Australian)	
\$m	million dollars (Australian)	
DM	deutschmark	
ECU	European currency unit	
€	euro	
£	pound sterling	
USc	cent (United States)	
US\$	dollar (United States)	
¥	yen	
ct	carat	
bbl	barrel	
mbd	million barrels a day	
cif	cost, insurance and freight	
fas	free alongside ship	
fob	free on board	
fot	free on truck	
nec	not elsewhere classified	
ABARE	Australian Bureau of Agricultural and Resource Economics	
ABS	Australian Bureau of Statistics	
AGSO	Australian Geological Survey Organisation (now Geoscience Australia)	
AWB Limited	Australian Wheat Board, Australian grain marketing company	
BAE	Bureau of Agricultural Economics (now ABARE)	
BMR	Bureau of Mineral Resources, Geology and Geophysics	
DITR	Department of Industry, Tourism and Resources	
FAO	Food and Agriculture Organisation of the United Nations	

Small discrepancies in totals are generally caused by rounding.

0 is used to denote nil or a negligible amount.

## Australian economy

### Overview

1	Australian gross product, by sector	1
2	Australian employment, by sector	2
3	Contribution to Australian employment, by sector	3
4	Value of Australian exports, by sector	4
5	Contribution to Australian merchandise exports, by sector	5
6	Contribution to Australian total exports, by sector	6
7	Value of Australian exports, by sector	7
8	Australian unit export returns	8

### Macroeconomic indicators

9	Australian main macroeconomic indicators	9
10	Australian trade balance and foreign debt	10
11	Average Australian exchange rates with selected countries	11
12	Exchange rates of selected countries	12
13	Growth of real gross domestic product in selected countries	13
14	Growth of industrial production in selected countries	14
15	Inflation and interest rates in selected countries	15
16	Population in selected countries and regions	16

### Farm sector

17	Australian farm returns, costs and prices	17
18	Volume of Australian farm production	18
19	Gross value of Australian farm production	19
20	Value of Australian agricultural exports	20
21	Value of Australian agricultural exports, by destination	21
22	Indexes of prices received by farmers in Australia	22
23	Farm land use and livestock numbers in Australia	24
24	Number of agricultural establishments and rural employment in Australia	25
25	Summary of farm sector and other rural exports	26

### Resources sector

26	Summary of operations of mineral resource establishments	27
27	Value of Australian mineral production, exploration expenditure and royalties paid	28
28	Australian private mineral exploration expenditure, by type of mineral sought	29

## Contents

---

29	Private new capital expenditure	30
30	Australian production of mineral commodities	31
31	Gross value of Australian mineral production, by commodity	32
32	Gross value of Australian mineral production, by state	33
33	Australian smelter and refinery production of mineral commodities	34
34	Prices of mineral commodities	35
35	Exports and imports of Australian mineral resources	36
36	Australian exports of mineral commodities	37
37	Value of Australian exports of mineral commodities	38
38	Australian exports of minerals, by destination	39
39	Australian imports of mineral commodities	40
40	Value of Australian imports of mineral commodities	41

## Rural commodities

### Coarse grains

41	Summary of Australian statistics for coarse grains	45
42	Australian coarse grains area, yield and production, by state	46
43	Australian exports of sorghum and oats, by destination	49
44	Australian coarse grains supply and disposal, by grain	50
45	Australian feedgrains prices	51
46	Summary of world statistics for coarse grains	52
47	World coarse grains production, by region and country	53
48	World coarse grains production, by grain	54
49	World coarse grains trade, by region and country	55
50	World corn trade, by region and country	56
51	World barley trade, by region and country	56
52	World sorghum trade, by country	57
53	US coarse grains supply and disposal	57
54	US corn supply and disposal	58
55	US sorghum and barley supply and disposal	59
56	Feedgrains export price quotations, by category	60
57	Coarse grains supply and disposal in major exporting countries	61

### Cotton

58	Australian cotton area harvested and lint yield	62
59	Australian cottonseed and lint production	63
60	Australian production, trade and use of raw cotton	64
61	Australian exports of raw cotton, by destination	65

---

62	Cotton prices and unit values	66
63	Summary of world statistics for raw cotton	67
64	World area, yield and production of raw cotton	68
65	World exports of raw cotton, by country	69
66	World imports of raw cotton, by destination	69
Dairy products		
67	Summary of Australian statistics for dairy products	70
68	Value of Australian exports of dairy products, by destination	71
69	Australian exports of dairy products, by destination	72
70	Australian dairy cow numbers, by state	73
71	Australian production of wholemilk, by state	74
72	Australian manufacture of dairy products	75
73	Australian consumption of dairy products	75
74	Australian milk prices and gross value of production	76
75	Average retail prices of selected dairy products, by quarter	77
76	Average export unit values of Australian dairy products	78
77	Australian imports of cheese, by variety	79
78	Summary of world statistics for dairy products	80
79	Milk production in selected regions and countries	81
80	Production of dairy products in selected regions and countries	82
81	Exports of dairy products, by selected countries	83
82	Imports of dairy products, by selected countries	84
83	Stocks of dairy products in principal producing countries	85
Farm inputs		
84	Major components of Australian farm costs	86
85	Indexes of prices paid by farmers in Australia	87
86	Indicative interest rates for the Australian farm sector	89
87	Farm indebtedness to financial institutions	90
88	Australian tractor sales, by type	91
89	Australian trade in selected farm machinery	92
90	Australian fertiliser prices, by type	93
91	World fertiliser indicator prices	94
92	Australian fertiliser consumption, by element	95
93	Australian imports of fertiliser, by element	95
94	Australian imports of raw materials for fertiliser production, by source	96
95	Australian trade in manufactured fertiliser, by type	97
96	Volume of Australian fertiliser imports, by state	98

## Contents

---

97	Value of Australian fertiliser imports, by state	99
98	Volume of Australian fertiliser imports, by quarter	100
99	Value of Australian fertiliser imports, by quarter	101
100	Australian sales and prices of chemicals, by product type	102
101	Australian farm fuel prices	103
102	Persons employed in agriculture, forestry and fisheries	104
103	Australian wages and the consumer price index	105
Fisheries		
104	Summary of Australian fisheries statistics	106
105	Quantity and value of Australian production of fisheries products	107
106	Australian exports of prawns, by product type and destination	108
107	Australian imports of prawns, by product type and source	109
108	Australian exports of rock lobster, by product type and destination	110
109	Australian imports of rock lobster, by source	111
110	Australian exports and imports of abalone, by product type and destination	112
111	Australian exports and imports of scallops, by product type and destination	113
112	Australian exports of fish, by product type and destination	114
113	Australian imports of fish, by product type and source	115
114	Australian exports and imports of oysters, by country	116
Food		
115	Summary statistics for the Australian processed food industry	117
116	Australian food exports, by level of transformation	118
117	Australian food exports to selected regions	119
118	Australian food imports, by level of transformation	120
119	Australian food imports from selected regions	121
120	World food imports, by level of transformation	122
121	World trade in processed foods, by major exporting countries	124
122	World trade in processed foods, by major importing countries	126
Forestry		
123	Summary of Australian statistics for roundwood	128
124	Land areas, by vegetation cover	129
125	Australian prices of selected forest products	130
126	Value of turnover in forest products industries	131
127	Employment in forest products industries	132
128	Value of Australian forest products trade	133
129	Australian production, trade and consumption of sawnwood	135

---

130	Australian imports of sawnwood, by source and type	136
131	Australian production, trade and consumption of railway sleepers	136
132	Australian production, trade and consumption of panel products	137
133	Australian production of plywood, by type	138
134	Australian imports of veneer and wood based panels, by source	139
135	Australian production, trade and consumption of paper and paper products	140
136	Australian imports of paper and paperboard, by type and source	141
137	Australian production of wood pulp and use of wastepaper	143
138	Australian imports of wood pulp, by type and source	143
139	Australian roundwood and woodchip trade	144
 Horticulture		
140	Summary of Australian statistics for grapes and grape products	145
141	Australian wine exports, by type and major destination	146
142	Australian domestic wine sales and imports, by type	147
143	Australian wine grape production and prices	147
144	Retail price indexes for alcoholic beverages	148
145	Production and trade in Australian dried vine fruit	148
146	Production and exports of Australian citrus, by variety	149
147	Utilisation of Australian citrus	149
 Meat – general		
148	Summary of Australian statistics for meat	150
149	Australian saleyard prices of livestock	151
150	Australian retail prices of meat	152
151	Prices for Australian meat on principal overseas markets	153
152	Australian exports of meat, by product	154
153	Summary of world statistics for livestock	155
154	Summary of US meat statistics	156
155	Summary of New Zealand meat statistics	156
156	Gross value of Australian livestock slaughterings	157
 Meat – beef and veal		
157	Australian supply and use of beef and veal	158
158	Australian cattle numbers, by state and territory	159
159	Australian exports of beef, veal and live cattle, by destination	160
160	Value of Australian exports of beef and veal, and live cattle	161
161	World cattle numbers, by country	162
162	World beef and veal production, by country	163

## Contents

---

163	Trade in beef and veal, by selected countries	164
164	Summary of Japanese beef and veal statistics	165
165	Summary of Korean beef and veal statistics	166
Meat – pigs and poultry		
166	Australian supply and use of pig and poultry meats	167
167	Australian pig numbers, by state and territory	168
168	World pig and poultry meat production in selected countries	168
169	World pig meat trade for selected countries	169
Meat – sheep		
170	Australian supply and use of mutton and lamb	170
171	Australian sheep numbers, by state and territory	171
172	Australian exports of sheep meat and live sheep, by destination	172
173	Value of Australian exports of sheep meat and live sheep	173
174	World sheep numbers, by country	174
175	World mutton and lamb production, by country	175
176	Trade in mutton and lamb, by selected countries	176
177	New Zealand sheep meat exports, by destination	177
Oilseeds		
178	Summary of Australian statistics for oilseeds	178
179	Australian oilseeds area, yield and production, by state and type	179
180	Australian exports of oilseeds, vegetable oils and meals, by type	183
181	Australian exports of selected oilseeds products, by destination	184
182	Australian imports of oilseeds, vegetable oils and meals, by type	185
183	Summary of world statistics for oilseeds	186
184	World oilseeds production, by country	187
185	World oilseeds production, by type	188
186	World oilseeds trade, by type and country	189
187	World protein meals trade, by type and country	190
188	World vegetable oils trade, by type and country	191
189	Selected oilseed, oilseed meal and vegetable oil import price quotations, by country	192
Pulses		
190	Summary of Australian statistics for pulses	193
191	Australian area sown, yields and production of selected pulses, by state	194
192	World pulses production, by region and country	198
193	World pulses trade, by region and country	199

---

Rice		
194	Summary of Australian statistics for rice	201
195	Australian rice area, yield and production, by state and type	202
196	Australian rice trade and payments to growers	203
197	Summary of world statistics for rice	204
198	World rice production, by country or region	205
199	World rice trade, by country	206
200	US rice supply and disposal	206
201	Rice export price quotations, by country	207
202	Rice supply and disposal in major exporting countries	208
Sugar		
203	Summary of Australian statistics for sugar	209
204	Australian cane and sugar production	210
205	Australian exports of sugar, by destination	210
206	World sugar supplies, consumption, trade and prices	211
207	World sugar production, by region and country	212
208	World sugar trade, by country	213
209	World raw sugar trade, by country	214
210	World white sugar trade, by country	215
Wheat		
211	Summary of Australian statistics for wheat	216
212	Australian wheat area, yield and production, by state	217
213	Australian exports of wheat and flour, by destination	218
214	Australian wheat supply and disposal	219
215	Australian wheat prices	220
216	Summary of world statistics for wheat	221
217	World wheat production, by country	222
218	World wheat trade, by country	223
219	US wheat supply and disposal	224
220	Wheat export price quotations, by country and category	225
221	Wheat supply and disposal in major exporting countries	226
Wool		
222	Summary of Australian statistics for wool	227
223	Australian shorn wool production, by state	228
224	Australian sheep disposal and wool production	229
225	Average auction prices for greasy wool in principal exporting countries	230
226	Average world prices for synthetic fibres	231

---

## Contents

---

227	Australian wool exports, by destination, recorded trade basis	232
228	Australian exports of semiprocessed shorn wool	233
229	World wool production, by country and type	234
230	Stocks of raw wool and tops, by country	234
231	Raw wool exports, by main producing countries	235
232	Market prices for Australian wool, by category	235

## Minerals and energy commodities

### Aluminium

233	Summary of Australian statistics for bauxite and alumina	239
234	Summary of Australian statistics for aluminium	240
235	Australian supply, disposal and prices of alumina and aluminium	241
236	Australian exports of aluminium, by destination	241
237	World production, consumption, stocks and prices for aluminium	242
238	World primary aluminium production, by region and country	243
239	World primary aluminium consumption, by region and country	244
240	World aluminium trade, by country	246

### Clays

241	Australian exports of clays, by destination	248
242	Australian imports of clays	249

### Coal

243	Summary of Australian statistics for black coal	250
244	Australian raw coal production, by state	251
245	Australian consumption of coal, by major end use	252
246	Australian exports of coal, by coal type	252
247	Australian exports of steaming coal, by destination	253
248	Australian exports of high quality coking coal, by destination	253
249	Australian exports of coking coal other than high quality, by destination	254
250	World exports of coal, by coal type and major exporters	254
251	Japanese imports of coal, by source	255
252	European Union imports of coal, by source	255
253	Japanese and European Union coal import unit values, by country of origin	256
254	Selected Australian–Japanese contract prices for coking and steaming coal	257
255	Australian and US coal export unit values, by destination	258
256	World hard coal production, by country	258

<b>Construction materials</b>	
257 Summary of Australian statistics for dimension stone	259
258 Australian production of dimension stone, by state	260
259 Australian exports of dimension stone, by destination	261
260 Australian imports of dimension stone	262
261 Australian production of sand, by state	263
262 Australian production of gravel, by state	264
263 Australian production of crushed and broken stone, by state	265
<b>Copper</b>	
264 Summary of Australian statistics for copper	266
265 Australian supply, disposal and prices of copper	267
266 Australian exports of copper, by destination	267
267 World production, consumption, stocks and prices of copper	268
268 World copper production, by region and country	269
269 World copper exports, by country	271
270 World copper imports, by country	272
<b>Gemstones</b>	
271 Summary of Australian statistics for gemstones	273
272 Australian supply and disposal of gemstones	274
273 World production of natural gem and cheap gem diamonds	274
<b>Gold</b>	
274 Summary of Australian statistics for gold	275
275 Australian gold production, imports and exports	276
276 Australian gold production, by state	277
277 World supply, demand and price of gold	278
<b>Gypsum</b>	
278 Summary of Australian statistics for gypsum	279
279 Australian production of gypsum, by state	280
280 Australian exports of gypsum	281
281 World mine production of gypsum, by country	282
<b>Iron ore and steel</b>	
282 Summary of Australian statistics for iron ore and steel	283
283 Australian exports of iron and steel, by destination	284
284 Australian supply and disposal of iron ore and steel	285
285 Australian iron ore exports, by destination	285
286 Summary of world statistics for iron ore and steel	286

## Contents

---

287	World iron ore production, by country	287
288	World iron ore exports, by country	287
289	World iron ore imports, by region and country	288
290	Iron ore prices	289
Lead		
291	Summary of Australian statistics for lead	290
292	Australian supply and disposal of lead	291
293	Australian exports of lead, by destination	292
294	World production, consumption, stocks and prices of lead	293
295	World lead production, by region and country	294
296	World lead trade, by major countries	295
Limestone		
297	Summary of Australian statistics for limestone	296
298	Australian production of limestone, by state	297
299	Australian imports of limestone and lime	298
Manganese		
300	Summary of Australian statistics for manganese	299
301	Australian supply and disposal of manganese	300
302	World production of manganese ore, by country	300
Nickel		
303	Summary of Australian statistics for nickel	301
304	World production, consumption and prices of nickel	302
305	World nickel smelter/refinery production, by region and country	303
306	World nickel mine production, by region and country	304
307	World primary refined nickel consumption, by region and country	305
Petroleum		
308	Summary of Australian statistics for primary petroleum	306
309	Summary of Australian statistics for refined petroleum products	307
310	Australian production of primary petroleum	308
311	Australian production of refined petroleum products	309
312	Australian consumption of petroleum	309
313	Australian production of primary petroleum, by basin	310
314	Volume of Australian trade in petroleum	312
315	Value of Australian trade in petroleum	313
316	Australian exports of petroleum, by destination	314
317	Australian imports of petroleum, by source	315

318	World crude oil supply and demand	316
319	Prices for crude oil, by origin	317
Salt		
320	Summary of Australian statistics for salt	319
321	Australian supply and disposal of salt	320
322	World production of salt, by country	320
Silica		
323	Summary of Australian statistics for silica	321
324	Australian production of silica, by state	322
325	Australian imports of silica based products	323
Silver		
326	Summary of Australian statistics for silver	324
327	Australian supply and disposal of silver	325
328	World mine production of silver	326
Talc		
329	Summary of Australian statistics for talc	327
330	Australian production of talc and pyrophyllite, by state	328
331	Australian exports of talc, by destination	329
332	Australian imports of talc, by source	330
333	World mine production of talc, by country	331
Tin		
334	Summary of Australian statistics for tin	332
335	Australian supply and disposal of tin	333
336	World mine production of tin in concentrates, by country	334
Titanium		
337	Summary of Australian statistics for titanium	335
338	Australian exports of ilmenite, by destination	336
339	Australian exports of rutile, by destination	337
340	World ilmenite production, by country	338
341	World rutile concentrate and titaniferous slag production, by country	339

# Contents

## Uranium

342	Summary of Australian statistics for uranium	340
343	World uranium production, by country	341
344	World uranium consumption, by country	342
345	Uranium prices	343
346	Nuclear power reactors in operation	344

## Zinc

347	Summary of Australian statistics for zinc	345
348	Australian supply and disposal of zinc	346
349	Australian exports of zinc, by destination	346
350	World production, consumption, stocks and prices of zinc	347
351	World zinc mine production, by region and country	348
352	World zinc metal production, by region and country	349
353	World zinc trade, by country	350

## Zircon and monazite

354	Summary of Australian statistics for zircon and monazite	351
355	Australian exports of zircon, by principal destination	352
356	World zircon production, by major producing country	353

To assist users of *Australian Commodity Statistics* a 'where to find' list of commonly used or difficult to find general items is included on page 354

<sup>a</sup> Obtained by deflating the net value of farm production by the consumer price index. <sup>b</sup> ABARE revised the method for calculating farm, price and production indexes in October 1999. The indexes for the different groups of farm commodities are now calculated on a chained weight basis using Fisher's ideal index with a reference year of 1997-98 = 100. <sup>c</sup> Ratio of index of prices received by farmers to index of prices paid by farmers. na Not available.

a Fifteen countries. b Includes commodities such as rice and lupins for which export data are not available by destination.

Note: For some agricultural commodities (namely, wheat, sugar and barley), data are only available by volume to specific export destinations. The country export values for these commodities are calculated using an average export unit return to all destinations.

na Not available.

Note: ABARE revised the method for calculating these indexes in October 1999. The indexes for commodity groups are now calculated on a chained weight basis using Fishers' ideal index with a reference year of 1997-98 = 100. Indexes for most individual commodities are based on annual gross unit value of production.

a As at 31 March. Before 1986-87, includes agricultural establishments with an estimated value of agricultural operations (EVAO) of \$2 500 or more. From 1986-87, the EVAO threshold was raised to \$20 000, and from 1991-92, the EVAO threshold was raised to \$22 500. b Average over four quarters. Between 1955-56 and 1993-94, the data refer to agriculture and services to agriculture. From 1994-95, data refer to agriculture, forestry, fishing and hunting, and services to these industries. na Not available.

<sup>a</sup> From 1992-93, the classification of census units is based on the 1993 edition of the Australian and New Zealand Standard Industrial Classification (ANZSIC). Before 1992-93, classification of census units was based on the Australian Standard Industrial Classification (ASIC); ANZSIC has replaced the following editions of ASIC: the 1983 edition (used since the 1982-83 census), the 1978 edition (used since the 1977-78 census) and the 1969 edition (used since the 1968-69 census). <sup>b</sup> Includes working proprietors. <sup>c</sup> Excludes amounts drawn by working proprietors. <sup>d</sup> Data for 1973-74 to 1987-88 and 1989-90 cover ASIC subdivisions 11-15; data for 1988-89, 1990-91 and 1991-92 cover ASIC subdivisions 11-14; data for 1992-93 cover ANZSIC subdivisions 11-14 (equivalent to ASIC subdivisions 11-15); and data for 1993-94 and 1994-95 cover ANZSIC subdivisions 11-13 (equivalent to ASIC subdivisions 11-14). Data from 1996-97 based on ABS mining collection, equivalent to ANZSIC subdivisions 11-13. <sup>na</sup> Not available.

<sup>a</sup> Balance of payments basis. <sup>b</sup> Includes ABARE estimates for bauxite, manganese and other ABS confidential minerals from 1984-85 until 1989-90. From 1990-91, ABS data include actual details for these items. ABARE estimates for items not classified as mineral resources by ABS are included for all years since 1984-85. <sup>c</sup> Pre 1987-88 reported on a calendar year basis. (example, 1987-88 = 1988). Post 1987-88 reported on a fiscal year basis.

<sup>a</sup> Crop years are November–October for barley, oats and triticale, and April–March for sorghum and maize. <sup>b</sup> Exports may include carryover from earlier harvests. <sup>c</sup> Estimated using the following seeding rates for grain crops: sorghum 5 kg/ha; barley 45 kg/ha; maize 15 kg/ha; oats 48 kg/ha; triticale 50 kg/ha. <sup>d</sup> Malt use is expressed as barley equivalent = malt x 1.2. Approximately 1000 tonnes of pearl barley is also included annually.

a Cotlook 'A' index quotes (cif Northern Europe) for strict middling (SM) 1 1/16" cotton from 1972-73 to July 1981, and for SM 1 3/32" cotton from August 1981, August-July crop year. b Equivalent to 'in store' prices – that is, Cotlook prices in USc/lb to which freight differentials have been added, then converted to Australian currency, with 'into store' charges added finally. Prices approximate import parity prices. c Gross value of production including cottonseed, divided by lint production. na Not available.

<sup>a</sup> The farm sector is defined as enterprises covered by ANZSIC (1994) agricultural categories 011–021. <sup>b</sup> Derived from all banks lending to agriculture, fishing and forestry less the fishing and forestry component, which is estimated to be around 6 per cent of that total in 1997.

<sup>c</sup> Includes the government agency business of state banks and advances made under War Service Land Settlement. Before 1996, includes loans from the Queensland Industry Development Corporation. From 1996, these loans are included in bank lending. <sup>d</sup> Includes loans from life insurance companies, lease agreements and indebtedness to hire purchase companies, trade creditors, private lenders and small financial institutions. na Not available.

a For the years to 1995, figures represent sales at the factory gate. These figures do not include sales from non-AVCARE members but are likely to represent about 90 per cent of actual total sales. b For the years after 1997, figures refer to total Australian sales as recorded by the APVMA. s ABARE estimate. na Not available.

**a** Turnover is defined as follows: sales of goods whether produced by the establishment or not, plus transfers out of goods to other establishments of the same enterprise, plus bounties and subsidies on production, plus all other operating revenue from outside the enterprise such as commission, repair and service revenue, plus capital work done for own use or for rental or lease. Receipts from rent, leasing, interest other than hire purchase, royalties and the sale of fixed tangible assets are excluded. Since 1988-89, full ABS censuses of manufacturing establishments have been conducted triennially. **b** Included with Paper bags including sack manufacturing. **na** Not available.

<sup>a</sup> Data up to 1970 are on a financial year (July–June) basis (1970 = 1970-71). <sup>b</sup> Before 1987, includes livestock holdings on establishments with an estimated value of agricultural operations (EVAO) of \$2 500 or more. From 1987, the EVAO was raised to \$5 000. <sup>c</sup> Beef and veal, mutton and lamb and pig meat production, expressed in carcass weight. <sup>d</sup> Before 1970, the exportable surplus of meat was derived by subtracting consumption from production, expressed in carcass weight. <sup>e</sup> Includes canned beef and veal before 1976. na Not available.

**a** Prices are on an estimated dressed weight basis and, with the exception of 'yearling', are for export quality stock: ox, 301–350 kilograms; cow, 201–260 kilograms; before January 1996, lamb, 16–18 kilograms, score 3; from January 1996, lamb, 18–20 kilograms, score 3; mutton, 18–24 kilograms, score 3; and pig, 60–73 kilograms. Quotation is the monthly average of fat stock prices in each major state market, weighted by the monthly production of each meat in the respective states.

a Price estimates are formed by indexing forward from actual average prices of beef, lamb, mutton, pork and chicken during December quarter 1973, based on meat subgroup indexes of the consumer price index. These indexes are based on average retail prices of selected cuts (weighted by expenditure) in state capitals. b Retail frozen.

**a** Includes dairy cattle slaughtered. **b** Excludes animals for breeding. **c** Excludes skin values. **d** New lamb saleyard indicator weight introduced in July 1995. New weight indicator 18–20 kilograms dressed weight used from 1995-96; before 1995-96, 16–18 kilograms dressed weight.

*Note:* The gross value of production is the value placed on recorded production at the wholesale prices realised in the market place. The point of measurement can vary between commodities. Generally the market place is the metropolitan market in each state and territory. However, where commodities are consumed locally or where they become raw material for a secondary industry, these points are presumed to be the market place. Prices used in these calculations do not include the GST.

<sup>a</sup> Based on rice industry figures calculated on a crop year basis. For example, the 1985-86 data are for the Queensland summer crop harvested from December 1985, the New South Wales crop harvested from April 1986, and the Queensland winter crop harvested from June 1986. <sup>b</sup> Paddy. <sup>c</sup> Unit gross value of production. <sup>d</sup> Based on ABS data; April–March marketing year basis; generally exports of the crop harvested in the previous year – that is, 1998-99 exports are sourced from the 1997-98 crop harvest. Milled. <sup>e</sup> Unit gross value of exports. Between 1952-53 and 1987-88, calculated from financial year total export values. From 1988-89, calculated from marketing year (April–March) total export values. <sup>f</sup> Table rice only. Excludes rice used for feed, breakfast cereals and rice used for other purposes; includes imports. Financial year basis. na Not available.

a Milled equivalent; marketing year (April–March) basis. b Free on board (fob). c Excludes broken rice. d US Department of Agriculture sourced nominal quote for Thai white rice, 100 per cent, grade B/2nd grade, fob Bangkok (August–July basis). e Derived. f For paddy rice from harvest in year indicated. Returns to New South Wales and Queensland growers include bonuses paid by respective rice growers cooperatives. For New South Wales growers, returns take into account a deduction for grower equity in storage facilities made by the Rice Marketing Board, New South Wales.

<sup>a</sup> Simple aggregation of different crop years. The marketing period in each country is: United States, August–July; Thailand, August–July; China, December–November; Pakistan, October–September; Viet Nam, July–June. <sup>b</sup> Paddy. <sup>c</sup> On a calendar year basis: 1995-96 = 1996; includes intra-EU trade. <sup>d</sup> Closing stocks are based on an aggregate of different local marketing years and should not be taken as representing world stock levels at a particular point in time.

<sup>a</sup> Raw sugar equivalent; September–August years. <sup>b</sup> Figures in parentheses show closing stocks as a percentage of consumption. <sup>c</sup> Trade is defined as world gross exports including those exports made under special arrangements, such as between Comecon countries and through the Lomé Convention. Individual countries of the former Soviet Union are treated as separate trading entities from 1983-84. <sup>d</sup> Average of monthly averages of International Sugar Agreement (ISA) price; fob and stowed Caribbean ports basis, in bulk. <sup>e</sup> Australian currency equivalents of ISA price. na Not available.

<sup>a</sup> Raw sugar equivalent, September–August years. <sup>b</sup> Regarded as twelve countries until 1 January 1995, then fifteen countries. <sup>c</sup> Totals for exports and imports may not be equal as a result of losses in transit, sugar being at sea at the end of each year, and discrepancies in the official statistics of individual countries.

a Before 1980-81, net production referred to raw coal production less rejects removed at coal industry washeries plus/less unexplained stock adjustments at mines and ports. From 1980-81, net production refers to raw coal production less rejects removed at coal industry washeries plus/less unexplained stock adjustments at mines only. Thus, from 1980-81, net production is identical to salable production. b Calendar year basis before 1984-85. na Not available.

a Total metallic content of minerals produced. b Includes both primary and secondary (scrap) production of blister copper. c Primary refined; producers' shipments to domestic consumers plus imports. d Quantities refer to total metallic content of all ores, concentrates, intermediate products or refined metal; value of metals contained in host mine and smelter products (for example, copper in lead concentrate or lead bullion) is not available separately and is included in the value of the mineral product or metal in which it is exported. e Mount Isa Mines, cathode, for Townsville refinery, price discontinued end of June 2000. 2000 onwards based on average US\$ LME spot calendar price converted into A\$.

a Includes direct use by manufacturers. b Excludes copper recovered from secondary materials by simple remelting. c Unwrought copper. d Average price for US producer cathodes. e LME average cash settlement price, grade A copper. Before December 1981, wirebars; from 1982 to 1986, higher grade copper. na Not available.

a Prior to July 1999 includes exports of refined gold that was imported as unrefined bullion, thereafter includes Australian origin gold only. b Quantities refer to total metallic content of all ores, concentrates, intermediate products or refined metal of which gold is the predominant constituent. c Value of metal contained in host mine and smelter products (for example, gold in copper concentrates or lead bullion) is not separately available; this is included in the value of the mineral product or metal product in which it is exported. d Average London AM fix.

a Total supply is defined as the flow of new mine output, and the net sale of aboveground stocks, while total demand is equal to net gold purchases. This classification of annual gold flows is symmetric, so that total annual supply equals total annual demand. b Average London AM fix price, expressed in US dollars.

<sup>a</sup> Total metallic content of minerals produced. <sup>b</sup> Metal content. <sup>c</sup> Primary lead production (excludes scrap). <sup>d</sup> Quantities refer to the total metallic content of all ores and concentrates, intermediate products and refined metal; the value of lead contained in other mine and smelter products (for example, in zinc concentrates) is included in the value of the metal in which it is exported. <sup>e</sup> BHAS, 99.97–99.99 per cent, fob/for Port Pirie.

a Total metallic content of minerals produced. b Includes imported ores for processing at the Yabulu refinery in Queensland. c Includes matte and speiss for further refining. d Product with a nickel content of less than 99 per cent. Includes ferronickel, oxides and oxide sinter. Excludes nickel-cobalt sulphides. e Products with a nickel content of 99 per cent or more. f Total metallic content. g London Metal Exchange average cash settlement price for refined nickel, melting grade, in Australian dollar equivalent. s ABARE estimate. na Not available.

<sup>a</sup> Export volumes for primary petroleum up to June 1977 are direct from ABS overseas trade reports. As a result of changes in ABS classifications from July 1977, other statistics are taken from Department of Resources and Energy and ABARE publications. <sup>b</sup> Before 1983 exports were principally semiprocessed and re-export feedstocks. <sup>c</sup> Includes ethane, methane and noncommercial natural gas. <sup>d</sup> 1 million tonnes (Mt) of LNG is approximately equal to 1.31 billion cubic metres (Gm<sup>3</sup>) of gas; production began in 1989-90. <sup>s</sup> ABARE estimate. <sup>na</sup> Not available.

<sup>a</sup> Metal content. <sup>b</sup> Excludes secondary (scrap) and zinc dust production. <sup>c</sup> Refined metal only. <sup>d</sup> Quantities refer to the total metallic content of all ores and concentrates, intermediate products and refined metal. The value of zinc contained in other mine and smelter products (for example, zinc in lead concentrates) is included in the value of the product in which it is exported. <sup>e</sup> EZ Industries, Prime Western, 98.5 per cent purity. Before 1968, Prime Western grade zinc at Cockle Creek. <sup>f</sup> Zinc export code classifications changed substantially between 1979 and 1980, creating a break in the continuity of the series.

## Where to find

---

This list is designed to help you locate some commonly used or difficult to find general items

Item	Table number/s
Balance of payments	10
Capital expenditure, private, new	29
Consumer price index	9, 17, 103
Employment	2, 3, 24, 102
Exchange rates	11, 12
Exports, by sector	4
Exports, contribution by sector	5, 6
Export price indexes	8
Farm chemicals, sales and prices of	100
Farm costs and components	17, 84
Farm exports, summary	25
Farm indebtedness	87
Farm land use	23
Farms, number of	24
Fertilisers	90–99
Foreign debt	10
Gross product, by sector	1
Gross value of farm production	17, 19
Gross value of mineral production	31, 32
Indexes of prices received by farmers	17, 22
Indexes of prices paid by farmers	17, 85
Inflation rates	9, 15
Interest rates	9, 15, 86
Livestock numbers, summary	23
Mineral commodity imports, summary	39, 40
Mineral exploration	27
Mineral exports, summary	36, 37
Mineral exports summary, by country of destination	38
Mineral prices, summary	34
Mineral royalties	27
Net value of farm production	17
Oil prices	319
Population, by selected countries and regions	16
Terms of trade, Australia	10
Terms of trade, farmers'	17
Wine, domestic sales and exports	141–144
