Meeting summary RAP 12

The risk analysis panel (RAP) for the New Zealand apple import risk analysis (IRA) held its twelfth meeting on 20 June by tele-conference.

The RAP discussed the recent appointment of Mr Tom Parnell to the position of Agricultural Counsellor within the Australian Embassy in Tokyo. Mr Parnell managed Biosecurity Australia's contribution to the IRA and provided the role of technical secretariat to the RAP. The RAP welcomed Mr David Heinrich, who has been selected to fill the position vacated by Mr Parnell.

The RAP was provided with a progress report on activities conducted by BA in relation to the revised draft IRA. BA also advised that issuance of the report from the panel in the WTO dispute between Japan and the USA had been delayed by several weeks.

The panel agreed to develop a revised stock-take of activities and tasks for consideration. This stock-take would provide a framework for determining the schedule of future face to face and tele-conference meetings of the panel.
