

27 October 2003

**PLANT BIOSECURITY POLICY MEMORANDUM    2003/32**  
**FINAL IMPORT POLICY FOR NETHERLANDS TRUSS TOMATOES**

This Plant Biosecurity Policy Memorandum (PBPM) is to notify stakeholders of the release of final import policy for truss tomatoes from the Netherlands.

PBPM 2003/13 of 24 March 2003 notified stakeholders of the release of the draft import policy for truss tomatoes from the Netherlands. Biosecurity Australia received comments from several stakeholders. These comments have been considered and where appropriate incorporated into the import policy.

This import policy permits the entry of truss tomatoes into Australia from the Netherlands under the conditions outlined within the import policy document.

The import policy is available from the DAFF website at [www.daff.gov.au/plantbiosecurity](http://www.daff.gov.au/plantbiosecurity) or copies can be requested from the contact point below.

The details for the import conditions for truss tomatoes from the Netherlands will be listed on the AQIS import conditions database (ICON) at [www.aqis.gov.au/icon](http://www.aqis.gov.au/icon).

The IRA Handbook 2003 is also available from the website at [www.daff.gov.au/irahandbook](http://www.daff.gov.au/irahandbook). The handbook outlines the administrative process that Biosecurity Australia follows for IRAs.
