BIOSECURITY AUSTRALIA ADVICE 2008/21

**ISSUES PAPER FOR THE IMPORT RISK ANALYSIS FOR
FRESH APPLE FRUIT FROM THE PEOPLE'S REPUBLIC OF CHINA**

This Biosecurity Australia Advice notifies stakeholders of the release of the *Issues paper for the import risk analysis for fresh apple fruit from the People's Republic of China*.

The issues paper provides information relevant to the import request and the import risk analysis that has been announced by Biosecurity Australia. It also includes a list of pests that are considered to be associated with apple production in China.

Biosecurity Australia has formed an expert panel to assist in its consideration of the scientific issues associated with the import risk analysis.

This issues paper is being released for 60 days consultation. Comments and submissions are invited by 5 September 2008.

Biosecurity Australia Advice 2008/05 of 17 March 2008 announced the formal commencement of an expanded, regulated import risk analysis (IRA) to consider a proposal to import fresh apple fruit from the People's Republic of China.

This Biosecurity Australia Advice notifies stakeholders of the release of the *Issues paper for the import risk analysis for fresh apple fruit from the People's Republic of China*. Stakeholders are invited to provide comments and submissions on the paper by 5 September 2008.

Publication of an issues paper has been included as part of the consultation process in this expanded IRA.

The issues paper provides information relevant to the import request and the import risk analysis that has been announced by Biosecurity Australia. It also includes a list of pests that are considered to be associated with apple production in China and the status of fire blight in China is also considered.

An expert panel has been formed to assist Biosecurity Australia in its consideration of the scientific issues during the risk analysis. The expert panel will comprise:

Professor David Guest	Plant Pathology, Faculty of Agriculture, Food and Natural Resources, University of Sydney
Professor John Irwin	Molecular Plant Sciences, Faculty of Biological and Chemical Sciences, University of Queensland
Mr Barry Philp	Former Director, Horticulture Industry Development, Primary Industries and Resources South Australia.

The issues paper and information about the regulated IRA process are available from the Biosecurity Australia website, www.biosecurityaustralia.gov.au. Printed copies are available, if required.

Comments on the issues paper should be submitted by 5 September 2008 to:
