

EXPORT ADVISORY NOTICE – 2008-01			25 January 2008
Title:	Daily voyage reporting requirements		
Species:	Livestock		
Country:	All	File No.	2006/00655
Relevant to:	Livestock Exporters Livecorp AQIS accredited veterinarians		

Purpose

To clarify with exporters and AQIS accredited veterinarians of the daily voyage reporting requirements for voyages of greater than or equal to ten (10) days duration.

Background

The following reporting requirement is included in the Australian Standards for the Export of Livestock:

ASEL S5.12	For journeys greater than or equal to ten (10) days, an accredited stock person must provide daily reports on the health and welfare of the livestock to the relevant Australian Government agency, commencing on day one (1) of the voyage. The report must include the information outlined in Appendix 5.1. Where an accredited veterinarian is on board, the veterinarian rather than the stock person must provide the daily report.
-------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Instructions

For all voyages of greater than or equal to ten (10) days duration, regardless of country of destination, the exporter must provide a daily voyage report for each day of the voyage.

It is important to note that although a voyage might originally be estimated at a duration of less than 9 days, if actual duration of the voyage is ten (10) or more days then the daily voyage reporting becomes a requirement.

For vessels which have consignments (LNCs) of livestock from more than one exporter, the person writing the daily voyage reports (AAV or stock person) must

supply information in accordance with Appendix 5.1 for each consignment (each LNC) on the vessel.
