

Map 1
GIPPSLAND
Comprehensive Regional Assessment
GEOLOGY

- RFA boundary
- Roads
- Rivers
- Water bodies

Australian Map Grid (AMG) Zone 55, Datum AGD66

MELBOURNE & TABBERABBERA ZONES

- CARBONIFEROUS
 - Carboniferous sediments undifferentiated
- LATE DEVONIAN
 - Snowy Plains Formation
 - Mount Kent Conglomerate
- EARLY & MIDDLE DEVONIAN
 - Moroka Glen Formation
 - Liptrap Formation
 - Devonian hornfels
 - Devonian basalts
 - Devonian rhyolites/rhyodacites
 - Donnellys Creek Siltstone
 - Walhalla Group
 - Montys Hut Formation
 - Norton Gully Sandstone
 - Humevale Siltstone
- DEVONIAN
 - Devonian granitoids
 - Silurian-Devonian granitoids
- SILURIAN-DEVONIAN
 - Silurian-Devonian sediments undifferentiated
 - Jordan River Group
 - Wilson Creek Shale
 - Boola Formation
 - Wurutwun Formation
 - Whitelaw Siltstone
 - Bullung Siltstone
 - Sinclair Valley Sandstone
 - McAdam Sandstone
 - Serpentine Creek Sandstone
- ORDOVICIAN
 - Howqua Shale
 - Ordoevician-Silurian sediments undifferentiated
 - Mount Easton Shale
 - Hotham Group
- CAMBRIAN
 - Cambrian sediments, basic volcanics, ultramafics, chert (Greenstone)

OMEZO ZONE

- TRIASSIC
 - Mount Leinster Igneous Complex
- LATE DEVONIAN
 - Moroka Glen Formation
 - Mount Tambo Group
- EARLY DEVONIAN
 - Devonian granitoids
 - Limestone Sequences
 - Wentworth Group
 - Snowy River Volcanics
 - Ignimbrites, rhyolitic lavas, minor interbedded conglomerate
 - Silurian-Devonian granitoids
- MIDDLE SILURIAN
 - Fault rock
 - Cowombat Siltstone and Wombat Creek Group
 - Gibsons Folly Formation
 - Thorkida and Mitta Mitta Volcanics
 - Silurian granitoids
- EARLY SILURIAN
 - Sandstone, mudstone, conglomerate (Yalmy & Cobbannah Groups, Towanga Sst, Seldom Seen Fm)
 - Ordovician sediments undifferentiated
 - Kiandra Group
 - Blueys Creek Formation
 - Pinnak Sandstone
 - Omeo Metamorphic Complex
 - Hotham Group
- ORDOVICIAN
 -

GIPPSLAND BASIN

- QUATERNARY
 - Quaternary gravel, silt, sand (incl coastal sand dunes)
- TERTIARY
 - Tertiary sediments (mainly Gippsland Limestone, Haunted Hills Gravel)
 - Latrobe Valley Group
 - Older Volcanics
 - Childers Formation
- CRETACEOUS
 - Strzelecki Group
